

## NEW manual powder coating machine CL-161S

New, easy to use all digital controller with LED displays.

The revolutionary manual powder spray system is packed with features to provide unsurpassed operator control, coating capability and ease of use for an unprecedented level of coating performance on demand.

- Excellent finishing
- Perfect balance
- Optimal handing
- Easy and fast to service
- High transfer efficiency

## Technical Data

Electrical data

Power range 220V/110V

Frequency 50HZ /60HZ

Temperature range in use -10 °C+50 °C

## Powder Gun

Gun weight: ..... 500G

Rated output voltage ..... 24VDC

Input voltage ..... - 200kv

Maximum output current ..... 180Ua(max)

Maximum output voltage..... 0-100KV ( adjustable)

Maximum powder injection :..... 600g/min

Polarity ..... negative (-)

## Pneumatic data

Maximum input-air pressure ..... 10kg/cm

Optimum input-air pressure..... 6kg/cm

Minimum input-air pressure ..... 4kg/cm

Maximum water vapor content or compressed air ..... 1.4g/N m3

Maximum oil vapor content of compressed air ..... 0.1ppm

Maximum compressed-air consumption..... 13.2 m3/h

**If you have any more questions about the machine  
please contact me . my name is SONIA**

**I speak english and spanish.**
