Automatic Noodle Making Machine

5 group rollers: MT5-250/MT5-300

Features:

All steel gear transmission, all bearing;

Small volume, compact structure;

Automatic transmission, molding at one time;

Automatic cutting, automatic roll on rolling bar;

Model	GLMT 5-250	GLMT 5-300	
Size of roller (mm)	R 138*250	R138*300	
Capacity (kg/h)	160-180kg/h	210-230kg/h	
Motor (kw)	3	3	
Size (L×W×H)(mm)	1500x650x1370	1500x750x1370	
Weight (kg)	550	650	

6 group rollers: MT6-260/MT6-300/MT6-330

Features:

Multiple sets of rolling, rolling wire drawing processing;

Feeding uniform,patch orderliness;

Sprocket chain drive with reducer, low noise, long life;

Automatic transmission, molding at one time;

Automatic cutting, automatic roll on rolling bar;

Model	GLMT6-260	GLMT6-300	GLMT6-330	
Roller size(mm)	R138*260	R138*300	R138*330	
Capacity (kg/h)	235kg/h	240-260kg/h	260-280kg/h	
Motor (kw)	3	4	4	
Size (L×W×H)(mm)	2200x630x1370	2400x680x1370	2400x710x1370	
Weight (kg)	860	910	970

7 group rollers: MT7-260/MT7-300/MT7-330

All steel gear transmission, all bearing;
Small volume, compact structure;
Multiple sets of rolling, rolling wire drawing processing;
Feeding uniform, patch orderliness;
Sprocket chain drive with reducer, low noise, long life;
Automatic transmission, molding at one time;
Automatic cutting, automatic roll on rolling bar;

Model	GLMT 7-260	GLMT 7-300	GLMT 7-330
Size of roller (mm)	R138*260	R138*300	R138*330
Capacity (kg/h)	260kg/h	280kg/h	320kg/h
Motor (kw)	4	4	4
Size (L×W×H)(mm)	2600x680x1370	2900x680x1370	2900x680x1370
Weight (kg)	910	980	1060

MT6-200

Feature:

Suitable for small noodles processing plants;
 Speed reducer, chain sprocket drive, long service life;
 Cutting automatically, automatic roll on the rolling bar;
 Economical, convenient use and maintenance.

Model	GLMT6-200	
Roller Size	96*250mm	
Capacity	180-210kg/h	
Power	3kw	
Weight	550kg	
Dimension	2000*600*1250mm	

MT5-200III

Roll is arranged, chain and sprocket transmission, easy maintenance;
 Automatic transmission, automatic section, automatic lever, economical and practical;
 Cutting automatically, automatic roll on the rolling bar;

Model	GLMT5-200III	
Roller Size	96*250mm	
Capacity	150-170/h	
Power	3kw	
Weight	380kg	
Dimension	1600*570*1225mm

MT5-200II

All steel gear transmission, all bearing;
 Small volume, compact structure;
 Cutting automatically, automatic roll on the rolling bar;
 Easy operation, simple structure

Model	GLMT5-200II	
Roller Size	96*250mm	
Capacity	150-170kg/h	
Power	3kw	
Weight	350kg	
Dimension	1180*630*1220mm	

MT5-250II

Features:

All steel gear transmission, all bearing;
 Small volume, compact structure;
 Automatic transmission, molding at one time;
 Automatic cutting, automatic roll on rolling bar;

Model	GLMT5-250II	
Roller Size	138*250mm	
Capacity	170-200kg/h	
Power	3kw	
Weight	550kg	
Dimension	1410*660*1300mm
