

20W 1.2M Flare Series Dimmable Diffusion T8 LED Tube Specifications

1. Features

- ◆ Compared with the traditional fluorescent lamp, LED fluorescent lamp can save 80% energy.
- ◆ In the same lighting conditions, the LED lamp brightness attenuation lower than that of traditional fluorescent lamps.
- ◆ LED lamps excluding ultraviolet and infrared radiation, does not contain mercury, lead, harmful environmental substances.
- ◆ Products with long life and super bright SMD LED, the product life of up to 30,000 hours, is 10 times the traditional fluorescent tube.
- ◆ The product installation is a single-ended input, and the products have been certified by CE, ROHS certification.

CE RoHS

2. Application

- ◆ Its products are widely used in homes, offices, hotels, shopping malls, hospitals, schools, government departments, industrial lighting, automotive lighting and other lighting applications.

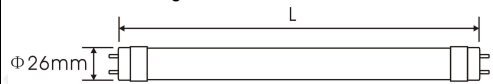

3. Technical Specifications

Model No.	JFT020W8C01	JFT020N7C01	JFT020S7C01
Color Temperature	2700-3500K	4000-4500K	5700-6300K
Luminous Flux	1650lm±10%	1700lm±10%	1750lm±10%
Color Rendering Index(R)	>80	>70	>70
LED Quantity	288 PCS		
Input	AC 185-264V, 47-63HZ		
Input Power	20W±15%		
LED Power	17.3W		
Power Factor	>0.9		
Type of Power	External Installation and Isolation and Dimmable		
Operation Ambient Temperature	-20°C ~ 40°C		
Storage Ambient Temperature	-20°C ~ 50°C		
Operation Ambient Humidity	10% ~ 90%		
Shell Material	1/3 Aluminum Shell and 2/3 Diffusion PC Cover		
Product Dimensions	Φ26×L1198mm		
Packaging Dimensions	Paper Box: Φ42×L1230mm		
	Carton: L1250×W250×H200mm		
Packaging Quantity	35 PCS/Carton		
Packaging	5×7		
GW	19.2KG		
Product Life Time	≥30,000 Hours

Declaration

We can't guarantee the silicon control dimmable LED lamp we manufacture is 100% compatible with all the silicon control dimmers on the market, if any flickering happens or the dimming function is not ideal is normal situation, customer may change the dimmer compatible with our lamp to realize the dimming function.
