

## Automatic Hydraulic Packer

### Brief Introduction

It applies to the soft materials of continuous compression and packing, such as various plastic, films, papers and cardboard. It can greatly reduce covering areas, provides the facilitate conditions to transport and reduce transport costs effectively.

### Mainly technical parameter:

Parametersy Type	Handling Capacity (t/h)	Total Power (kW)	Packing Dimensions(W×H)
BL10	4~6	44.5	1080×680

Notes: The packing length is adjustable.

### External Form, Joint Dimensions:

mm

Parameters Type	Overall Dimensions (L×W×H)	Feed Inlet dimensions(L×W×H)	Feed Inlet Height (H1)
BL10	9015×2065×4030	1400×1080×680	2380
