

A woman is shown in profile, looking at a tablet. Below her is the text "Introduction to company" followed by a short paragraph. To the right is a "Contents" section with a list of product categories and their page numbers.

### Introduction to company

The SWE Group is a leading manufacturer of electrical accessories for over 60 years. We are committed to providing high-quality products that meet the needs of our customers. Our products are designed to be reliable, durable, and easy to use. We have a wide range of products to suit every application, from simple switches to complex control systems. Our commitment to quality and customer service is what sets us apart from our competitors. We are proud to be a part of the SWE Group and to provide our customers with the best possible products and service.

  - 1-GANG TELEPHONE SOCKETS
  - 2-GANG TELEPHONE SOCKETS
  - 15A COVER PLATE
  - ALUMINUM PLATES
  - METAL SCOURING BOX

The SWE logo and "T Range Electrical Accessories" title are at the top left. Below them are several technical certificates. On the right, a photograph shows two gold-colored electrical switches with the code "T 3 01 D B" printed on them. Below the photo are instructions on how to use the product code and a table for the code structure.

### T Range Electrical Accessories

Code for product range: T

Code for product function: 3

Code number for the product: 01

Code for metal plate in different finish: D

Code for the different color of the inserts: B

The product range code uses the following structure:

Code	Range	Function	Product	Finish	Color
T	3	01	D	B	

The number of different color code insert color is only valid for the range T.

Code	Range	Function	Product	Finish	Color
T	3	01	D	B	

The product code structure consists of 6 figures. The first 2 figures refer to the product range, and the other 4 figures refer to the product function, product, finish, and color.
