

Barcoding the World™

■ Usage

An approved carrier must be used at all times with the machine to avoid jamming.

Remove the protective paper from 3 layered sheet and insert artwork, face up, behind the carbon sheet.

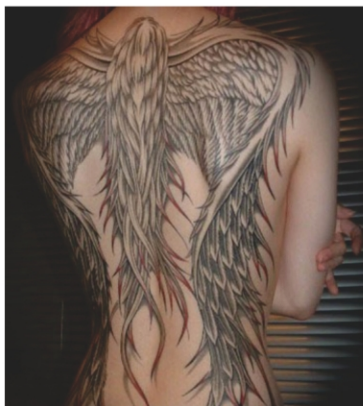

Turn the thermal copier on and feed the carrier into the machine.

When the carrier begins to emerge from rear, hold/pull and support the carrier, then remove it from machine.

Open the carrier to remove your design and return carrier to the protective envelope immediately.
