1

Introduction to our team

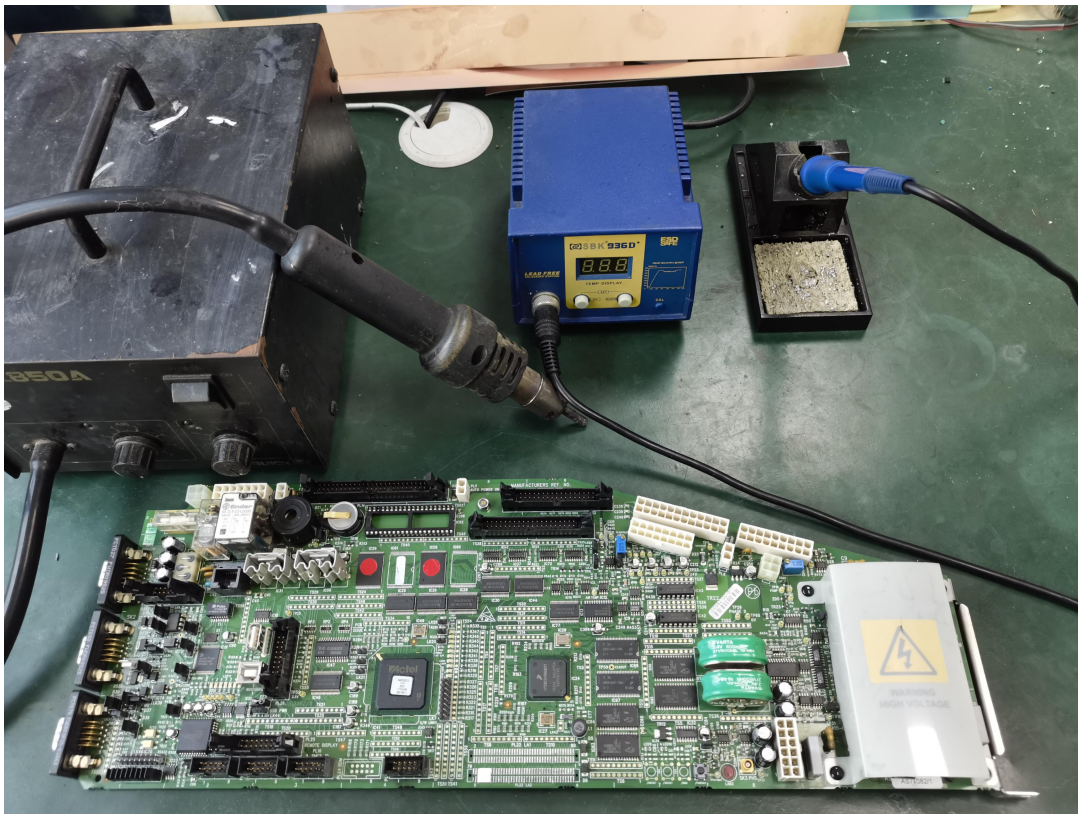

We have nearly 20 years of experience in LINX CIJ maintenance. We can repair the IPM of 5900, 7900, 8830, 8900 and Mk7, MK9 and MK11 printhead.

We can develop some replacement parts, which have been tested on the LINX CIJ for a long time .

We provide alternative RFID for 88XX and 89XX ink, solvent and service KIT, and it can solve the problem of expired consumables.

We provide high-quality CIJ, LASER, TTO, TIJ and packaging machinery made in China.
