

Gabion Bordering Machine

OUR BORDERING MACHINE TO RUSSIA

(1)wire diameter: 2.2-4.0mm

(2)working width: **4000mm**

(3)output: 5m/minute

(4)power: 5KW

(5)size: (LXWXH): 4620X700X1360 (mm)

(6)add net hold device ,to hold the net when bordering

Gabion Packing Machine

1. Picture:

2. Specification:

- 1) Maximum packing size: $2100 \times 1060 \times 1000$ (unit:mm)
- 2) Working way: hydraulic
- 3) Power: 5.5KW
- 4) Work pressure: 0.3~0.6mPa
- 5) Total weight: about 1500kg
- 6) Exterior size: $2340 \times 1200 \times 3900$ (unit:mm)

Netting Sheet Cutting Machine

1. Max. shearing wire diameter:8mm
2. Shearing angle: 0.5-1°
3. Number of stroke:10
4. Cutting thickness:Max 6mm
5. Power:5.5kw
6. Weight:Approx.6 ton
7. Size:4840x1705x2115mm
8. Cutting blade length:4300mm
9. hydraulic type
10. meter setting Max. 10 zones (for example you could set 2m , 0.5m ,0.6m ,3 m ,4m ,5m ,6m 0.8m, 1m, 6m. the cutting machine will cutting the net according your setting sequence one by one)
11. cutting point is precision
12. frequency motor
13. we design the electric cabinet control the net straightening machine and cutting machine together

Wire PVC Coating Production Line

1. Picture:

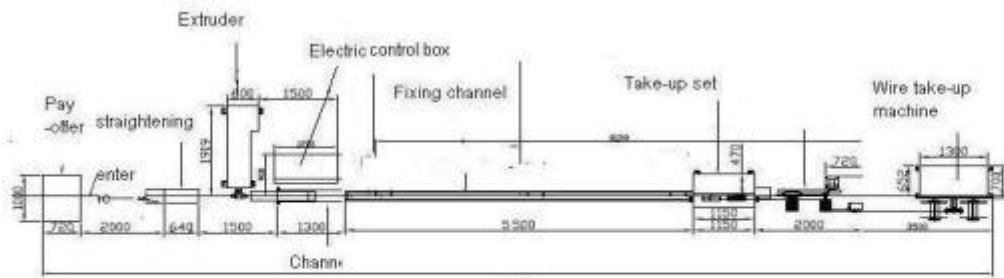

2. Parameter

- 1) Screw diameter:65mm
- 2) Screw working length:1625mm
- 3) Screw slenderness ratio:25:1
- 4) Screw revolution:4-40r/min
- 5) Motor:
- 6) Model:Y160M-4
- 7) Power:20KW
- 8) Barrel heating and cooling:
- 9) Heating zone:5
- 10) Heating Power:5KW
- 11) Center height:1000mm
- 12) Weight:450KGS

13) Re-coiling device:
