

Electric Galvanizing Line

Process Flowing

1. Raw material Decoiling >>
2. Wire Tensioning >>
3. Electrolytic Acid cleaning >>
4. Cooling Water Cleaning >>
5. Electric Zinc-plating >>
6. Cooling Water Cleaning >>
7. Cooling Water Cleaning >>
8. Hot Water Cleaning >>
9. Drying >>
10. Spooling

Main Technical Parameters

1. No. of Galvanizing Line: 10
2. Total Power: 50kw (frequency)
3. Dia. of Wire: 1.5-4.0mm
4. Max. Speed: 55m/min.
5. Average Capacity: 1000kg/h
6. Length of Production Line: 80M
7. Operator needed for production line: 4 operators + 1 manager
