

### Battery Terminal & Wiper Arm Puller DN-D1026

1. Heavy-duty construction with locking feature allowing the tool to be fastened securely to the wiper arm before commencing pull.
2. Combination of swivel mounted thrust bearing and tommy bar on thrust bolt allow even the most stubborn wiper arms to be lifted off their drives.
3. Suitable also for battery terminal and alternator bearing removal.

Maximum Opening: 28mm

Maximum Collar Size: 43mm.
