Product Applications Scenarios

Talking a call - Speakerphone mode

- Bluetooth speaker can act as a very high quality speakerphone for your cell phone smartphone, You can receive and end calls and manage a call hold.
- If you take a call on your phone when it is connected to the speaker, You'll hear it ringing through the speaker.
- Speak voice response commands through the speaker's microphone.
- Click + or - raise or lower the volume.
- Click the action button to cancel voice response mode.

Intelligent bluetooth hands-free calls

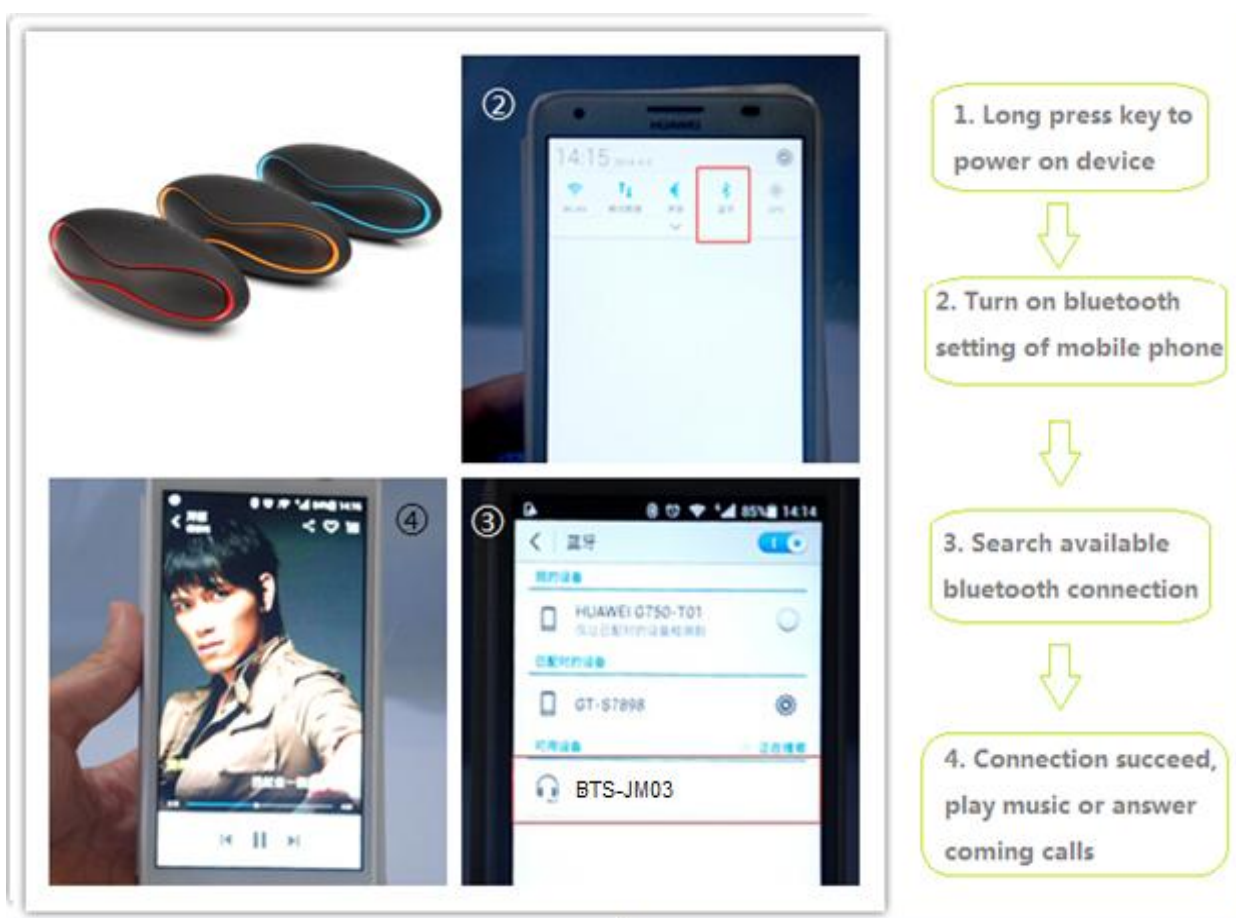

A key answer the phone

High Sound Quality

Connecting your speaker to smartphones and other devices

- Connect to Bluetooth Speaker either through its audio input jack or through a Bluetooth wireless link. Only one of these inputs can be active at a time.
- Connect one end of a 3.5 mm audio cable to your Fugoo Bluetooth Speaker's audio input jack, then connect the other end to the headphones jack of your audio device.
- The LED glows blue and a voice prompt says, "Disconnected. Bluetooth off.Connected".
- Plugging an audio cable into the speaker's audio input jack turns off the Bluetooth wireless link, to save power and maximize battery life.
