Product Applications Scenarios

Power Bank Speaker controls

Charging Power Bank Speaker

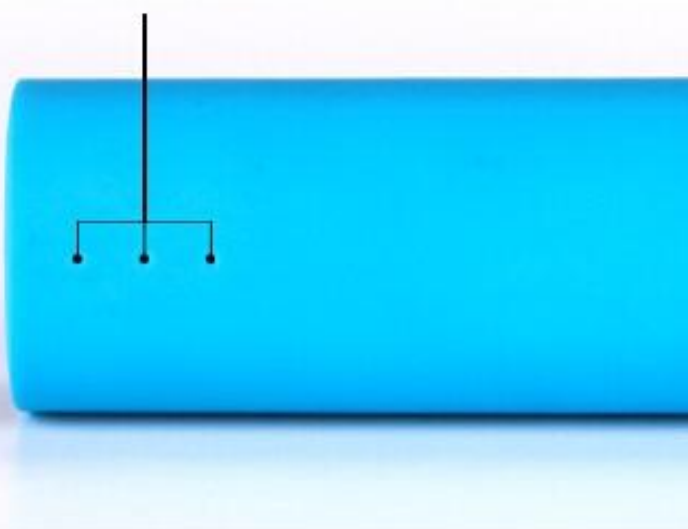

Checking the battery level

- Connect USB cable to charge battery, one terminal (3.5mm plug) connect the power bank speaker, and the other terminal (USB port) connect to PC or AC adapter.

- . While the power bank speaker's battery is being charged, the first LED light will show red.
- . When the power bank speaker's battery has reached full charge, the second LED light will show blue.

Working Light

Connecting your power bank speaker as Phone Holder

- Connect one end of a 3.5 mm audio cable to your Power bank Speaker's audio input jack, then connect the other end to the headphones jack of your audio device.

Connecting your power bank speaker as Power Bank

- Connect USB cable to power bank speaker and phone or tablet PC for charging power.

Connecting your power bank speaker to smartphones and other devices

- Connect one end of a 3.5 mm audio cable to your Power bank Speaker's audio input jack, then connect the other end to the headphones jack of your audio device.
- The LED glows blue means connected successfully.
