Stainless Steel Product Line & Equipment

CTL&SL

The cutting & slitting services started from 2003, till now Daming has imported over thirty international-standard cutting & slitting lines from Italy, Korea, Taiwan and so on, which can meet different needs of stainless steel customers, from cold rolled to hot rolled, from narrow strips to ultra-width plates process.

Surface Polishing

Daming could offer multi-style surface polishing on the stainless steel materials, including coil to coil wet polishing, sheet to sheet dry polishing or sheet to sheet wet polishing, mirror polishing, with the main styles No.4, HL, 8K, SB, etc.

Cutting

Daming have imported lots of advanced cutting machines from Germany, America, and Japan, including plasmas cutting machines, water jet cutting machines, laser cutting machines, bandsaw machines.

Except for enlarging process range and application fields and improving process precision, Daming also adopts nest working, multi-style cutting methods and intensive production to enhance the production capacity and reduce customers costs, so as to meet variegated requirements of the customers.

Forming

Many first-class equipments make up of the Forming Platform, including but not limited to CNC shearing, press brake, beveling machine, straightening machine, roll bending machine, flat bar machine, disc blanking machine and deburring machine, which can supply more various semi-products and more extensive process services for customers.
