Neutriherbs Carbonated Bubble Clay Mask

>> Ingredient

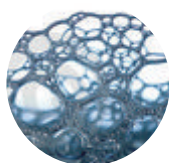

Volcanic Soil

Volcanic Soil is highly absorptive, which is known for its ability to bind and draw out heavy metals and other toxins from the skin. The mineral-rich clay also absorbs excess oil, reduces surface shine, and provides benefits of soothing and healing.

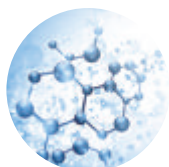

Bentonite

Bentonite absorbs sebum, removes impurities from the skin, and helps prevent pore clogging. It is non-comedogenic and commonly used in masks for oily skin.

Carbonated Bubble

Carbonated Bubble provides gentle massaging properties to the pores and these cleansing properties help to lift out oil and dirt from deep inside the pores.

Hyaluronic Acid

Hyaluronic Acid plumps and hydrates dry and dull skin, assists in balancing skin moisture levels, and leaves your skin soft and moisturizing.

Aqua, Glycerin, Volcanic Soil, Propylene Glycol, Magnesium Aluminum Silicate, Bentonite, Dimethicone, Alkyl Ethoxy Polyglycosides, Trehalose, Aloe Barbadensis Leaf Extract, Portulaca Oleracea Extract, Sargassum Fusi-forme Extract, Sodium Hyaluronate (Hyaluronic Acid), Menthol, Phenoxyethanol, Parfum.

>> How To Use

1. After washing face, simply apply proper amount of mask on your face evenly, avoid applying too close to the eyes, nostrils, and lips.

2. After 2-5 minutes, bubbles will appear.

3. When the bubbles blown up absolutely, do foam massage with a little tepid water for 1-2 minutes.

4. Use the spatula to gently scrape off the bubble mask, rinse off thoroughly with lukewarm water. How often to use: 2-3 times per week.

Caution:

1. Keep container closed after using, avoid connection with air.
2. Do not use on irritated, broken, inflamed, exfoliated, or burnt skin. Avoid use if your skin is very dry or sensitive to face masks.
3. For external use only, if swallowed, get medical help.
4. Stop using this product and ask a doctor if irritation occurs.
5. Cautiously use in sensitive skin.
6. Keep out of the reach of Children.
7. Store in a cool place and keep tightly closed.

Neutriherbs Carbonated Bubble Clay Mask

>> FAQ

1. Is it the bubble mask natural?

ANS: Carbonated Bubble Clay Mask Ingredients

There are many ingredients contained within the carbonated bubble clay mask. Volcanic soil, Bentonite, Aloe extracts, Hyaluronic Acid and etc all work together to benefit your skin. There are some natural ingredients in these products, and a few standard chemical products that you find in most skin care products that are designed to preserve and provide the texture to the product.

2. I noticed that after opening and using this product, it starts to foam in the container, even when it's tightly sealed. Is this an issue?

ANS: When the clay is exposed to the air, it will come into being the bubbles. Because only a little air in the bottle and surface material will be exposed to air, which is no influence on the quality and effect.

3. How long should it use on my face?

ANS: Push down on the sides of the top to disperse product and apply a thin layer to slightly damp skin. Formula will gradually transform into gentle, fizzing bubbles. Allow mask to sit on the skin for about 5-10 minutes until bubbles begin to dissipate. Massage face with fingertips and wash with warm water to remove. Pat dry and follow with a moisturizer. Recommended usage is 1-3 times a week. Avoid eye contact

4. How often should you use this?

ANS: 1-3 times per week.

5. What skin type is this mask suitable for?

ANS: It is recommended to use for neutral (mixed skin) and oily skin. Dry skin needs to be used with moisturizing products after used it. We don't suggest the sensitive skin to use it, or should test it before using.

6. Does this bubble mask has any side effect? Why is my skin a little itchy?

ANS: We added natural raw material, such as volcano soil, Bentonite, Trehalose, Aloe Barbadensis Leaf Extract, etc. All these ingredients effectively clean your skin, while the carbonate bubble may slightly stimulate the skin, but there is not side-effects on your face. Because of the slight irritation of carbonic acid, if it's less bubbles, then less stimulation on your skin, which is without any side effects.

7. How does it work?

ANS: This carbonated bubble clay mask is mainly make up of volcanic soil which is rich in rare mineral elements and contains carbonic acid, it will be resolved into CO₂ and water under the influence of body temperature and air, strengthen the cleaning effect with the help of volcanic soil bubbles.

8. Do i need to wash make up off first?

ANS: Yes, we recommend washing your makeup off first, after then, you can use the bubble clay mask. After simply cleaning and thoroughly dry with towel, then using our bubble clay mask, best used at night.

9. How to store it? Do I store this in the refrigerator or shelf?

ANS: We suggest you to store this at room temperature. Not too cold, either too hot. Please avoid direct sunlight, also keeping it at the place which children can not reach. Just make sure it's sealed tight after opening.

Neutriherbs Carbonated Bubble Clay Mask

>> FAQ

10. What is the main ingredients?

ANS: Volcanic Soil, Bentonite, Ethyl Perfluorobutyl Ether, Sodium Hyaluronate (Hyaluronic Acid), etc.

11. What is bubble mask?

ANS: Packed with Clay, this innovated carbonated mask cleanses, exfoliates, and unclogs pores. It bubbles as it sloughs off dead skin cells and lifts pore-clogging dirt and sebum. Its powerful nutrients also replenish the skin, softening and smoothing for a youthful glow. Most interesting is it will blister on your face.

12. How many uses can you get out of one tube?

ANS: You can use sometimes once or twice a week. One tube about two week.

13. What certificates you can provide?

ANS: GMPC、FDA、MSDS etc.

>> FAQ

1. What is the difference of your dead sea mud mask from others?

ANS:

- a. Our Dead Sea mud is imported direct from the Dead Sea in Jordan. Our source is 100% pure Dead Sea mud.
- b. Rich essential minerals to helps to pull the toxins out of the face & body.
- c. Made from natural ingredients, without any irritation to your skin.
- d. Original certificate of dead sea mud.

2. What are the function of the Dead Sea Mud Mask?

ANS:

- a. It helps to pull the toxins out of the face & body.
- b. Deeply cleaning and removing dirty.
- c. Mud from the Dead Sea is highly effective against pimples, blackheads, and other blemishes.
- d. It draws out excess oils and toxins, cleans pores.
- e. 100% natural skin care treatment, No harsh chemicals or artificial additives.

3. What is the benefits of dead sea mud mask?

ANS:

- a. Rejuvenates & Softens Skin
- b. Draws out impurities & Clear pores
- c. Tightens & Smooths out fine lines & wrinkles
- d. Relieves dry, itchy or irritated skin
- e. Relaxes sore muscles & Relieves aches & pains

4 How to use Dead Sea Mud Mask?

ANS:

- a. Apply a thin layer of mud mask to clean skin, when applying on face, avoid the eye and lip areas. Leave mask on for 10-15 minutes until dry.
- b. Use warm water in circular motions to gently remove the mask. Pat dry with a clean cloth. Do not use more than once a week.

5. Does the dead sea mud mask need to dry before removing it for it to be effective?

ANS: No, though it's perfectly ok if it does. But not necessary for effectiveness, Simply follow the instructions on the back of every jar and rinse when the time is up for a moisturized, re-mineralized, smooth, soft, glowing look & feel!

6. What is so special about the Dead Sea?

ANS: The Dead Sea is the Earth's largest natural spa. Located on the lowest point of the planet, it abounds with a variety of minerals with proven therapeutic powers and cosmetic benefits. The life-giving waters of the Dead Sea contain the highest concentration of minerals in the world.

7. How does the Dead Sea Mud Mask works?

ANS: Dead Sea Mud Mask is a type of clay mask used as a beauty treatment for the skin on the face. This mud mask is designed to improve the appearance of the skin by removing impurities and dead skin cells, deeply cleansing the pores, moisturizing, and tightening the skin for a younger looking appearance.

8. Can I use this mud everywhere?
