Single-touch 4wire Resistive Touch Screen
Light-touch type
LST Series

DMC
Interface with Touch

Light-touch resistive with reduced input load

LST Series Lineup

Part No.	SIZE
LST-057A080A	5.7"
LST-065A080A	6.5"
LST-070WA080A	7" wide
LST-084A080A	8.4"
LST-090WA080A	9" wide
LST-101WA080A	10.1" wide
LST-104A080A	10.4"
LST-121B080A	12.1"
LST-121WB080A	12.1" wide
LST-150B080A	15"
LST-156WB080A	15.6" wide
LST-185WB080A	18.5" wide
LST-190B080A	19"
LST-215WB080A	21.5" wide

Controller

TSC-54 / 44 Series

TSC-50/IC	Serial/USB Touch Screen Controller IC
TSC-40/IC	Serial Touch Screen Controller IC
TSC-54/RU	RS-232C/USB Combo TS Controller Board
TSC-54/U-L	USB Touch Screen Controller Board
TSC-44/RSA-E	RS-232C Touch Screen Controller Board

FEATURES

01
Light-touch like smartphone

Light-touch operability is realized by a smooth film material and DMC's own manufacturing technology.

02
Flick input

Flick input is easier than an ordinary resistive touch screen due to light-touch operability.

03
Wide range of size lineup

Standard models from 5.7" to 21.5" W can meet the market demands for various applications and products.

04
Full flat design by customization

Bezel-less flat interface can be realized with an overlay film added on the surface of the touch screen.
