OMRON

Bringing technology to life

# Sysmac - the family that matches every requirement

An HMI that is dynamic, intuitive and predictive makes industrial machines more attractive and competitive. The Omron HMI enables faster, more efficient control and monitoring - and a more natural, proactive relationship between operator and machine. The design has been based on real applications and customer requirements, a future-proofed, scalable platform that will evolve with their ever-changing needs, allowing real time reaction to events. As part of the system family, the NA Series is fully aware of the total machine.

- Proactive operator/ machine relationship
- Design based on real applications and customer requirements
- Future-proof, scalable platform
- Allows quick reaction

## Integrating your world

Sysmac Studio is the centrepiece of the Sysmac Platform, bringing together all areas of automation including: logic, motion, vision, safety and now visualisation. The NA series machine interface brings you a clear view in one integrated project.

#### ONE Tag Database

 Share NJ Variables (Tags) in the machine interface application.
 "Intelli sense" makes it FAST

#### ONE Learning, ONE Project

- Program your controller and safety systems
- Simultaneously program the NA Series as device in Sysmac Studio
- Program your whole machine in one project
- Work in a familiar way on all devices

#### Safe and secure

• Configure individual users with multi access levels

#### – SIMPLE

- Clearly and quickly define the View
- Quickly change properties, animations, events and actions
- Powerful page editor to group objects
- Rotate, and resize all with a simple click

#### **BUT STILL FLEXIBLE**

- Write your Visual Basic Script with Visual Basic
- Extend the possibilities with Visual Basic

#### Test it in ONE

- Integrated testing through simulation of motion, logic and visualisation at the same time
- Build confidence before having a single piece of hardware
- Test your machine interface with the NJ Control program via the Simulator in Sysmac Studio

#### Features for speed

- Structured programming (through One software)
- Network device insight
- Vision setup
- Machine Controller troubleshooting

## Insight & security maximised ...

The NA series has full security and authentication features that keep your valuable assets secure at all times. And if something unexpected does happen, in your machine you will be able to solve the problem quickly and prevent a reoccurrence.

- Multiple-access level security and authentication
- Troubleshooting tools and history log
- Tune and adjust parameters without stopping the machine
- Quick loading of new data sets into the NJ Controller
- Data sets can be saved to/from the SD card

The NA Series can be configured to specific staff, with multi access levels with password protection. This ensures authorised people interact with the machine.

#### Protecting your assets

Your project can be passwordprotected along with other applications (Control and Safety).
Transferring data can be protected (disable overwrite or theft).

## ... downtime minimised

#### Multimedia on your machine

24x7.

You can present a machine view that is understandable at a glance. The NA Series brings everything together through rich media including PDF, video, and data to provide an intuitive and proactive machine management tool.

Show your manual in a movie Imagine actually showing how to perform certain procedures. With the NA Series you have a trained engineer at the operator's side,

### Show PDFs

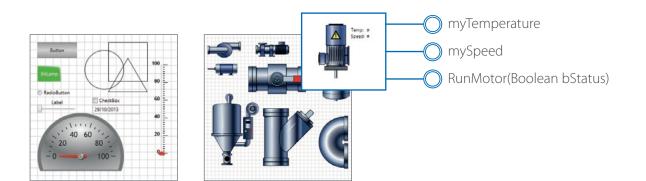

You can use whatever visual assets you already have to illustrate how to do things.

## Simple, but Flexible!

The NA Series gives the user the ability to design using IAGs (Intelligent Application Gadgets). IAGs simplify and accelerate the development process through structuring the project and enhancing reuse. From simple graphics to complex objects, you can make your own collections and share them between projects, like a Function Block.

#### Step 1: Machine Parts, the Visual

Using standard controls, or graphics from the machine parts collection, design your own IAG. Add interface properties and methods to bring the object to life when reused.

Pub	lic Function RunMotor(bStatus As Boolean) As Double
	'start motor at default speed
	mySpeed = 50
	return current speed
	RunMotor = 5D
End	Function
Pub	lic Function IncreaseSpeed(nIncrement As Integer) As Double
	' Increase speed by increment if < 1000
	If mySpeed + nIncrement < 1000 Then
	<pre>mySpeed = mySpeed + nIncrement</pre>
	Else
	'Otherwise set to top speed
	mySpeed = 1000
	End If
	'Return new speed
	IncreaseSpeed = mySpeed

#### Step 2: Extensible with Visual Basic

As well as many graphic IAGs, it is also possible to embed code within an IAG. The code can extend the possibilities of the gadget such as providing special device communication. Thanks to Visual Basic the standard functionality of the NA can be extended as required.

3

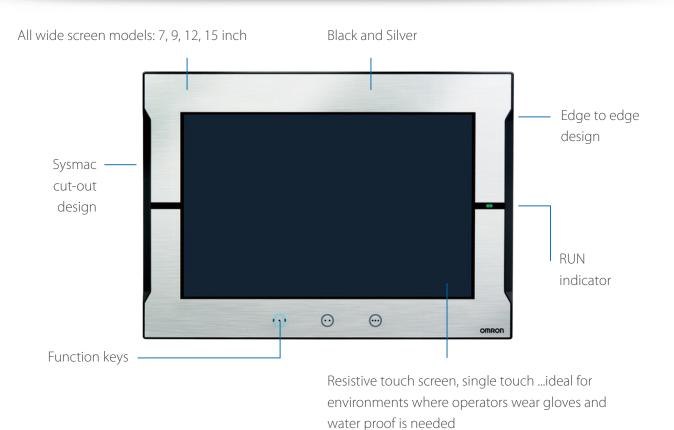

• • • • • • • • • • • • • • • • • • •

AG Collections Mar

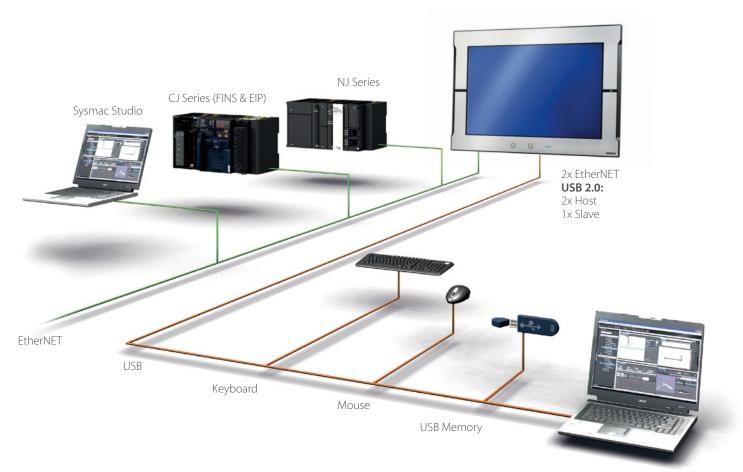

#### Step 3: Publish and Share

When the IAG is built and tested (using simulation) it can be published and the collection file distributed to be used again and again. Omron will release further IAG collections to extend the functionality of the NA Series.

## A range of options that covers every need

Sysmac Studio

# High speed communications network Broad choice of connection possibilities USB cable detachable without changing the hardware Water and dust proof design

# Programmable Terminal NA Series

#### Bringing technology to life

The NA-series Programmable Terminal transforms machine data into information, shows information and controls devices based on requirements at FA manufacturing sites.

The NA Series, together with the NJ-series Machine Automation Controller and the Automation Software Sysmac Studio, allows you to simply and flexibly create sophisticated user interfaces to suit your machines.

#### Features

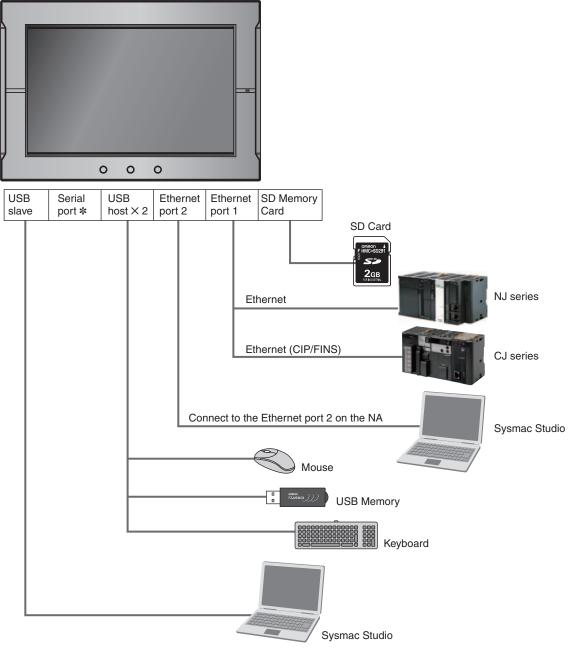

- Widescreen in all models: 7, 9, 12, and 15 inches
- More than 16 million color display for all models and 1280 x 800 high resolution display for the 12 and 15-inch models
- Multimedia including video and PDF
- 2 Ethernet ports capable of simultaneous access from both the control device and maintenance segments by separating the segments
- Sysmac Studio providing an Integrated Development Environment
- NJ variables sharing in the NA project and NA application testing with the NJ program via the Simulator to reduce development time
- Many security features including operation authority settings and execution restrictions with IDs
- Microsoft Visual Basic for versatile, flexible and advanced programming

Sysmac is a trademark or registered trademark of OMRON Corporation in Japan and other countries for OMRON factory automation products. Windows, Visual Basic, Word, Excel are either registered trademarks or trademarks of Microsoft Corporation in the United Status and/or other countries. EtherCAT<sup>®</sup> is registered trademark and patented technology, licensed by Beckhoff Automation GmbH, Germany. EtherNet/IP<sup>TM</sup> is the trademarks of ODVA.

Other company names and product names in this document are the trademarks or registered trademarks of their respective companies. The product photographs and figures that are used in this catalog may vary somewhat from the actual products.

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

#### System configuration

\*NA system version 1.00 does not support the serial port. Future expansion is planned.

#### **Performance Specifications**

#### Display

Item		Specification				
		NA5-15W	NA5-12W	NA5-9W	NA5-7W	
	Display device	TFT LCD	·			
	Screen size	15.4 inches	12.1 inches	9.0 inches	7.0 inches	
	Resolution	1,280 $\times$ 800 dots (horizontal $\times$ vertical) 800 $\times$ 480 dots (horizontal $\times$ vertical)			al $\times$ vertical)	
Display panel <b>*</b> 1	Colors	16,770,000 colors (24 bit full colors)				
	Effective display area	$331 \times 207 \text{ mm}$ (horizontal X vertical)	$261 \times 163 \text{ mm}$ (horizontal × vertical)	$197 \times 118 \text{ mm}$ (horizontal X vertical)	$152 \times 91 \text{ mm}$ (horizontal × vertical)	
	View angles	Left: 60°, Right: 60°, Top: 60°, Bottom: 60°				
Backlight #2	Life	50,000 hours min. *3				
Backlight #2	Brightness adjustment	200 levels				
Front panel indicators *4	RUN	Lit green: Normal operatio	n Lit red: Error			

\*1. There may be some defective pixels in the display. This is not a fault as long as the numbers of defective light and dark pixels fall within the following standard ranges.

Model	Standard range
NA5-15W NA5-12W NA5-12W NA5-9W NA5-9W NA5-7W	Number of light and dark pixels: 10 or less. (There must not be 3 consecutive light/dark pixels.)

\*2. The backlight can be replaced at an OMRON maintenance base.
\*3. This is the estimated time before brightness is reduced by half at room temperature and humidity. The life expectancy is drastically shortened if Programmable Terminal is used at high temperatures.

**\*4.** The brightness of the front panel indicators is also adjustable when you adjust the brightness of the backlight.

#### Operation

Item	Specification				
nem	NA5-15W	NA5-12W	NA5-9W	NA5-7W0000	
	Method: Analog resistance membrane (pressure sensitive)				
Touch panel	Resolution: 16,384 × 16,384				
	Life: 1,000,000 operations				
Function keys *	3 inputs (capacitance inputs)				

\* Each function key has blue indicator. The brightness of the function key indicators is also adjustable when you adjust the brightness of the backlight.

#### **Data Capacity**

ltem	Specification			
nem	NA5-15W	NA5-12W	NA5-9W	NA5-7W0000
User data capacity	256 MB			

#### **External Interfaces**

Item		Specifications (Same for all models.)
	Applications	Port 1: Connecting to anything other than the Sysmac Studio, e.g., device connections and VNC clients Port 2: Connecting to the Sysmac Studio in addition to the applications of port 1.
	Number of ports	2 ports
Ethernet ports	Compliant standards	IEEE 802.3i (10BASE-T), IEEE 802.3u (100BASE-TX), and IEEE 802.3ab (1000Base-T)
	Transmission media	Shielded twisted-pair (STP) cable: Category 5, 5e, or higher
	Transmission distance	100 m
	Connector	RJ-45 8P8C modular connector
	Applications	USB Memory Device, keyboard, or mouse
	Number of ports	2 ports
USB host ports	Compliant standards	USB 2.0
	Transmission distance	5 m max.
	Connector	Type-A connector
	Applications	Sysmac Studio connection
	Number of ports	1 port
USB slave port	Compliant standards	USB 2.0
	Transmission distance	5 m max.
	Connector	Type-B connector
	Applications	Device Connection
	Number of ports	1 port
Serial port <b>*</b>	Compliant standards	RS-232C
	Transmission distance	15 m max.
	Connector	D-DUB 9-pin female connector
	Applications	To transfer or store the project or to store log data.
SD Memory Card slot	Number of slots	1 slot
	Compliant standards	SD/SDHC
Expansion Unit	Applications	Expansion Unit
connector *	Quantity	1

\* The serial port and Expansion Unit connector are for future expansion.

16

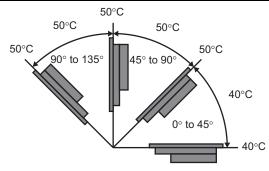

#### **NA** series

#### **General Specifications**

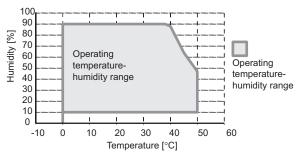

ltem	Specification			
item	NA5-15W0000	NA5-12W0000	NA5-9W0000	NA5-7W0000
Rated supply voltage	24 VDC			
Allowable power supply voltage range	19.2 to 28.8 VDC (24 VDC ±20%)			
Allowable momentary power interruption time	Operation for momentary power interruption is not specified.			
Power consumption	47 W max.	45 W max.	40 W max.	35 W max.
Ambient operating temperature	0 to 50°C <b>*</b> 1 <b>*</b> 2			
Ambient storage temperature	-20 to +60°C *3			
Ambient operating humidity	10 to 90% *2 Must be no condensation.			
Atmosphere	Must be free from corrosive gases.			
Pollution degree	2 or less: JIS B 3502, IEC 61131-2			
Noise immunity	2 kV on power supply line (Conforms to IEC 61000-4-4.)			
Vibration resistance (during operation)	Conforms to IEC 60068-2-6. 5 to 8.4 Hz with 3.5 mm half amplitude and 8.4 to 150 Hz with 9.8 m/s <sup>2</sup> for 100 minutes each in X,Y, and Z directions (Time coefficient of 10 minutes $\times$ coefficient factor of 10 = total time of 100 min.)			
Shock resistance (during operation)	Conforms to IEC 60028-2-27. 147 m/s <sup>2</sup> 3 times each in X, Y, and Z directions			
Dimensions	$420 \times 291 \times 69 \text{ mm} (W \times H \times D)$	$340 \times 244 \times 69 \text{ mm} (W \times H \times D)$	$290 \times 190 \times 69 \text{ mm} (W \times H \times D)$	236 $\times$ 165 $\times$ 69 mm (W $\times$ H $\times$ D)
Panel cutout dimensions	$392_{0}^{+1} \times 268_{0}^{+1}$ mm (horizontal × vertical) Panel thickness: 1.6 to 6.0 mm	$310_{0}^{+1} \times 221_{0}^{+1}$ mm (horizontal × vertical) Panel thickness: 1.6 to 6.0 mm	$261_{0}^{+1} \times 166_{0}^{+1}$ mm (horizontal × vertical) Panel thickness: 1.6 to 6.0 mm	$197_{0}^{+0.5} \times 141_{0}^{+0.5}$ mm (horizontal × vertical) Panel thickness: 1.6 to 6.0 mm
Weight	3.2 kg max.	2.3 kg max.	1.7 kg max.	1.3 kg max.
Degree of protection	Front-panel controls: IP65 oil-proof type, UL type 4X			
Battery life	Battery life: 5 years at 25°C The RTC will be backed up for 5 days after the battery runs low. The RTC will be backed up by a super capacitor for 5 minutes after removing the old battery. (This assumes that the power is first turned ON for at least 5 minutes and then turned OFF.)			
International standards	UL 508/CSA standard C22.2 No.142 *4 EMC Directive (2004/108/EC) EN 61131-2:2007 Shipbuilding standards LR, DNV, and NK IP65 oil-proof, UL type 4X (front panel only) ANSI 12.12.01 Class 1 Division 2/CSA standard C22.2 RoHS Directive (2002/95/EC) KC Standards KN 61000-6-2:2012-06 for EMS and KN 61000-6-4:2012-06 for EMI RCM perature is subject to the following restrictions, 50°C			

depending on the mounting angle.

- The ambient operating temperature is 0° to 40°C when the mounting angle is 0° or more and less than 45° to the horizontal.
- The ambient operating temperature is 0° to 50°C when the mounting angle is 45° or more and 90° or less to the horizontal.
- The ambient operating temperature is 0° to 50°C when the mounting angle is 90° or more and 135° or less to the horizontal.

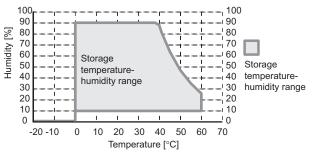

**\*2.** Use the Programmable Terminal within the following temperature and humidity ranges.

**\*4.** Use power supply Class 2 to conform to UL Standards.

**\*3.** Store the Programmable Terminal within the following temperature and humidity ranges.

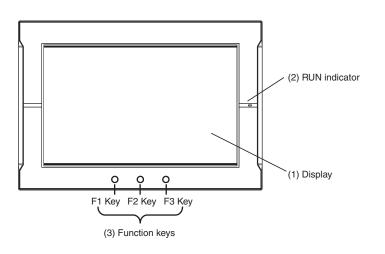

#### NA series Version Information

NA series and Programming Devices

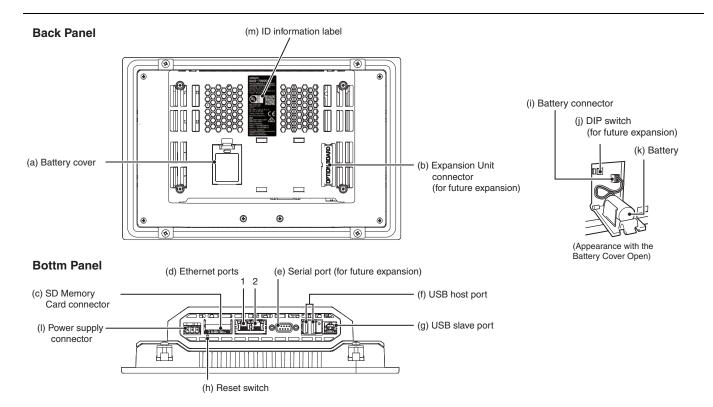

NA series		Corresponding unit versions/version	
Model NA system version		NJ-series CPU Units NJ501-□□□□ NJ301-□□□□	Sysmac studio
NA5-15W		NJ501 : 1.01 or later NJ501 Database Connection : 1.05 or later NJ301 : 1.01 or later	1.10 or later
NA5-12W	1.00		
NA5-9W	1.00 or later		
NA5-7W			

#### **Components and Functions**

#### **Front Panel**

No.	Name	Description	
(1)	Display	The entire display is a touch panel that also functions as an input device.	
(2)	RUN indicator	The status of the indicator changes according to the status of the NA.	
(3)	There are three function keys: F1, F2, and F3.		

No.	Name	Description	
(a)	Battery cover	Open this cover to replace the Battery.	
(b)	Expansion Unit connector *	For future expansion.	
(c)	SD Memory Card connector	Insert an SD Memory Card here.	
(d)	Ethernet port 1	Connect a device other than the Sysmac Studio.	
(d)	Ethernet port 2	Connect mainly the Sysmac Studio.	
(e)	Serial port *	For future expansion.	
(f)	USB host port	Connect this port to a USB Memory Device, mouse, etc.	
(g)	USB slave port	Connect the Sysmac Studio or other devices.	
(h)	Reset switch	Use this switch to reset the NA.	
(i)	Battery connector	Connect the connector on the backup Battery here.	
(j)	DIP switch *	For future expansion. (The DIP switch is on a PCB that is accessed by opening the Battery cover.) Do not change any of the factory settings of the pins on the DIP switch. (Default setting: OFF)	
(k)	Battery	This is the battery to backup the clock information in the NA.	
(I)	DC input terminals	These are the power supply terminals. Connect the accessory power supply connector and supply power.	
(m)	ID information label	You can check the ID information of the NA.	

\* The DIP switch, Expansion Unit connector, and serial port are for future expansion.

#### **Terms and Conditions Agreement**

#### Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

#### Warranties.

- (a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
- (b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See http://www.omron.com/global/ or contact your Omron representative for published information.

#### Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

#### Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

#### Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

#### Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

#### Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

#### Errors and Omissions.

Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

#### Note: Do not use this document to operate the Unit.
