## VICPAS only provide high quality accessories.

Over the past 15 years, VICPAS has evolved to one of the world's leading suppliers in professional HMI & robotic teach pendant accessories. We believe this success is a result of many factors but a key one is our goal of continuous improvement for all products, services and solutions we offer.

Achieving this level of quality is not easy when we must frequently obtain replacement parts for end-of-life or obsolete products. It's quite a challenge and in some instances impossible to still procure legacy components that are no longer manufactured. Therefore we have invested in producing our own line of direct replacement components to meet the original manufacturers quality and functionality. We have the utmost confidence in these items and back them with a 12 month warranty.

We would like to offer you, as one of our esteemed customers, the opportunity to benefit from our efforts. In this Replacement Catalogue you will find a listing of all the components we can offer you. Bear in mind that contact VICPAS for best price

Looking ahead, we plan to expand our offering of additional replacements. Feel free to let us know what challenges you have, so we can work together in finding a solution.
