A Global Leader for 40+ Years

For over 40 years, Pro-face has set the standard for Human Machine Interface and Industrial Personal Computers. A global company, with a local presence, Pro-face provides global product availability, support, and service.

While we are global, it's our local presence that makes us agile, and able to provide our customers with world class products, and industry leading support. From our state-of-the-art facility in Ann Arbor Michigan, we are able to provide local product assembly and customization, training, repair, and technical support that makes your decision to use Pro-face a wise one.

Pro-face helps manufacturers, big and small, solve their toughest factory problems and make their companies efficient, automated and profitable. As an ISO9001 certified company, Pro-face was the first company to produce a touch screen flat panel operator interface, and our hardware and software connects to more third party devices than any others in the industry. But what really sets us apart is our commitment to be a true partner with our customers.

Software Updates
& Drivers 

Local Assembly

We listen to you, our customer, and custom build iPC's to your specifications right here in our state-of-the-art facility in Ann Arbor, Michigan. All iPC's are assembled by hand and tested by our experienced technicians, who see the products through from beginning to end.

Training

Pro-face offers hands-on training both at our corporate office and at your facility to ensure that you are comfortable utilizing the capabilities of your HMI and iPC. In addition, a large library of web based training is at your fingertips.

Repair

Should your HMI or iPC need repair or refurbishment, Pro-face America has the fastest turn around repair service in the industry with an average of just three days.

Tech Support

Pro-face offers industry leading tech support at no cost. Real time, live help to answer your questions and get your applications running and your problems solved.

Our FREE technical support website has been upgraded with services aimed at reducing development man-hours by offering FAQ, Driver Downloads, Manual downloads, Application Notes, and much more.

People

At Pro-face, it's not only our products that are industry leading, but also our people. Whether its tech support, application engineering, customer care, or the ability to custom assemble and ship products rapidly, Pro-face provides customer service that continuously delivers.

The Pro-face eCatalog is the absolute best way to find everything you need to know about any Pro-face offering—complete with technical specifications, 360° visuals, CAD drawings, manuals, data sheets, and much more

Your Choice of Platform

HMI +

The **GP4000** Series offers touch screen displays with extensive simultaneous multi-protocol connectivity. The HMI to use for data sharing and data acquisition applications.

HMI + Control +

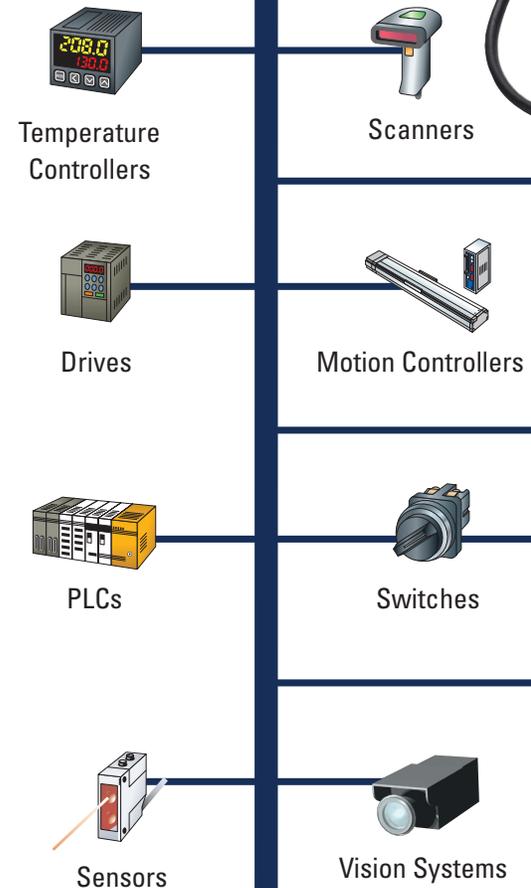

The **LT4000M** provides both HMI and digital / analog control in a single unit. A unique modular style allows the display and rear module to be mounted directly or separately.

Flat Panel Monitors +

Pro-face **FP5000** Series Flat Panel Monitors offer display sizes of 12.1" or 15" TFT color, with enhanced resolution that will meet the needs of your applications.

Flexible and Easy Installation with Compact Configurations

22mm Hole Mounting

LT4000M
Series

+ Enhanced HMI

The **SP5000** Series delivers cutting-edge features with an innovative and flexible modular design. For Industry 4.0 smart automation architectures. Ideal for big data. Multiple display + box combinations.

+ USB Solutions

Pro-face **EZ Series** HMI accessories are easy to connect and powered by the USB port, easy to install with 22mm hole mounting, and easy to set up with GP-Pro EX.

+ IPC

EZ Illuminated Switch +

EZ Towerlight +

EZ LAN Adapter +

EZ Fingerprint Recognition Unit +

EZ Numpad +

The **PS5000** Series offers high connectivity, reliability, and design. Our built-to-order lineup includes Node Box PCs with Intel Core i7, and Celeron CPUs which can be used in a modular and flexible Panel PC configuration with 12", 15", 19" or 22" display screens, allowing the flexibility to change the functions and sizes.

HMI Overview

GP4000 Series +

The GP4000 HMI Series offers extensive connectivity, easy-to-read displays, and multiple screen size options. Our wide variety of HMIs include Standard, Basic, Compact, Modular, Handheld, and HMIs with Control. All are equipped with Best in Class Connectivity, Powerful HMI Functionality, and Full Compatibility with legacy Pro-face GP-Pro EX and GP3000 products. GP4000 HMI drivers allow you to “talk to” your preferred PLC, vision system, motion controller, temperature controller, inverter, bar code reader, and actuator.

EZ Illuminated Switch

Divide IT network from control network	5 switches with multi-colored LEDs
Configure with only the HMI	Tactile Switches, changeable among 6 colors
Easily retrofit an existing machine with ethernet	3 speed blinking

HMI Overview

SP5000 Series

The Pro-face SP5000 Enhanced HMI Series offers separate display and box modules for a mix and match capability giving you flexibility, easy screen replacement without re-programming, and multiple programming options with the power and open node boxes. The SP5000 series allows a huge variety of data to be downloaded to HMI and transmitted in an optimal format to those who need it, improving production efficiency by better leveraging the big data generated at production work sites and offices. Perfect for Industry 4.0 smart automation architectures.

iPC Overview

PS5000 Series +

The PS5000 Series is the newest line up in the Pro-face Industrial PC family, offering high connectivity, reliability, and design. With multiple display sizes from 10" to 22", customers can choose from a slim, modular, and box design, with low reactivity glass that creates less glare and higher contrast. Available with different processors, including Core i3, ATOM, Celeron, and Core i7, there is an option to fit almost any application.

Software Overview

HMI Screen Editor & Logic Programming Software

GP-Pro EX⁺

Create Your HMI Application in Minutes

GP-Pro EX is the easy-to-use development software for Pro-face HMI and IPC units. With a wide array of application development tools, expanded diagnostic features and simulation capabilities, GP-Pro EX is capable of handling the most demanding HMI applications.

Set up communications

- Choose and set up PLC and third-party devices effortlessly
- System settings are logically arranged and easy to find

Design application/screens

- Drag-and-drop addressing, parts and colors
- Efficient features to reduce development time
- Create consistent look and feel using the user-defined templates

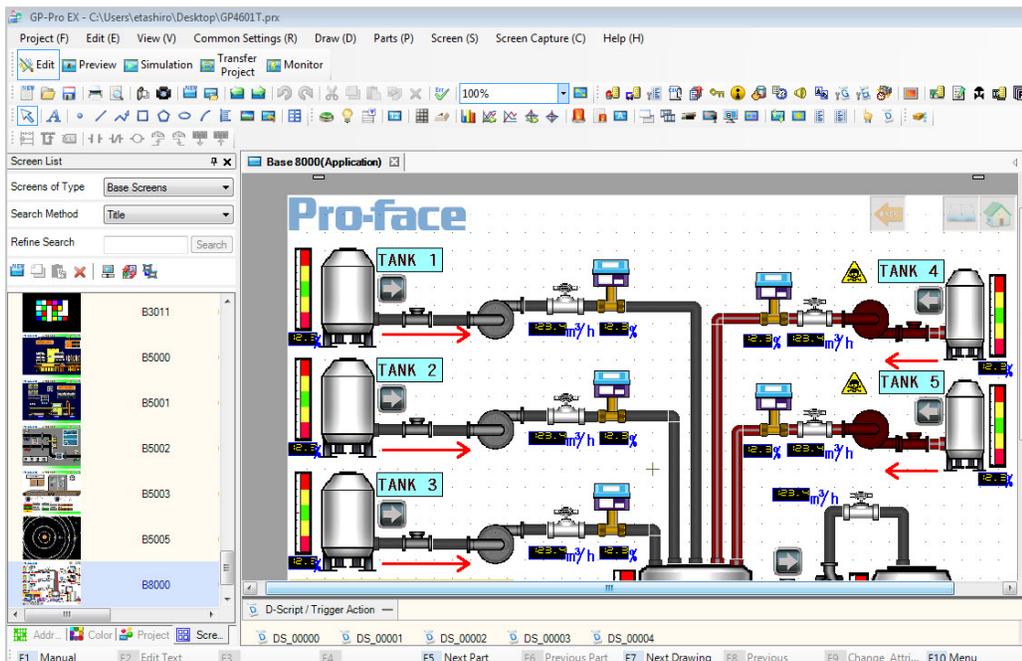

Simulate and test

- Verify before you travel
- Debug your application without hardware
- Test without downloading

Download/transfer

- Tamper-proof HMI application – password-protected project source

One development software for both dedicated and open windows-based operator interfaces.

View over 20 GP-Pro EX technical videos on YouTube.

GP-Pro EX Playlist

Download the Pro-face Software Guide on iTunes or Google Play.

Control Room

Plant Floor

Pro-face open- platform HMI

Application software for sharing user-defined factory-floor data throughout the corporate enterprise

- + GP-Viewer**
Monitor and Control Multiple Operator Interfaces from a Single Remote PC.
- + Remote PC Access**
Harness the power of a PC from your dedicated HMI.
- + WinGP**
Runtime software for GP-Pro EX created applications.
- + Camera Viewer**
Record, Display and Playback Live Video of Industrial Operations on a Remote PC.
- + Memory Loader**
Field maintenance and backup with data protection.
- + FTP Server**
Upload and download data files to the operator interface over the internet.
- + Pass Through**
Programming and monitoring PLC via operator interface.
- + Transfer Tool**
Easy machine maintenance and data log retrieval.
- + WebServer**
View HMI information and alerts through a web browser.

Software Overview

Pro-face Remote HMI +

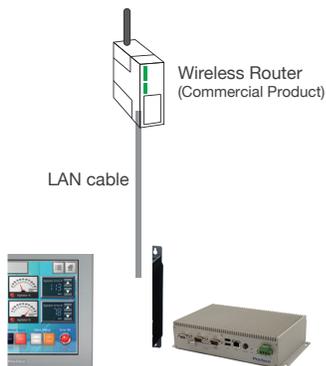

Pro-face Remote HMI allows you to check machines and equipment for alarms, operating status, and other information using a tablet or smartphone from anywhere on the factory floor.

Quick steps to use Pro-face Remote HMI

STEP1

Hardware Preparation

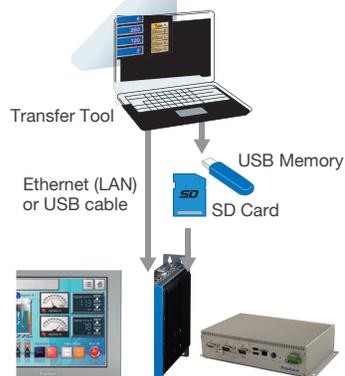

Prepare Wireless Router and connect to HMI.

STEP2

Transfer Project File

Adjust application in GP-Pro EX and transfer it to HMI.

STEP3

Install Remote HMI on a tablet or smartphone

Download and install Pro-face Remote HMI on a tablet or smartphone. Search HMI and connect to monitor the HMI screen.

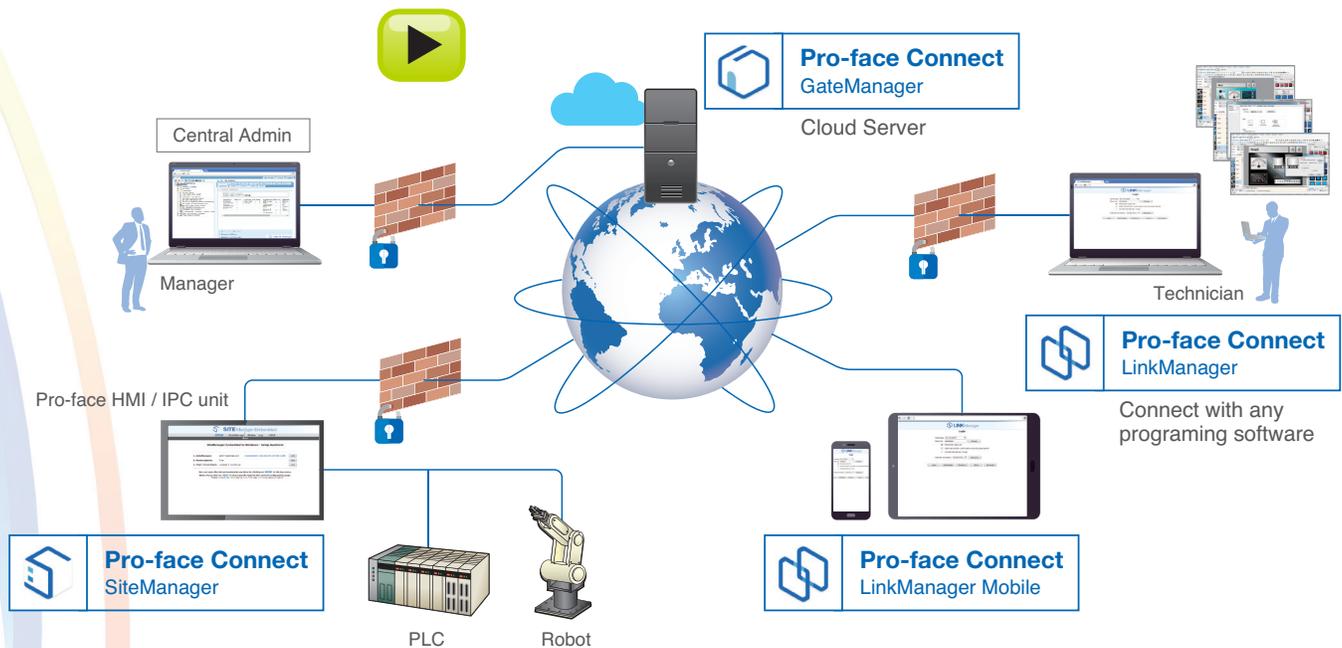

*Remote HMI Server license is required separately to monitor IPC and PC. +

Software Overview

Pro-face Connect

Secure Remote Access over Internet 

Pro-face Connect is a ready to use embedded HMI service to access machines remotely and securely.

Download a **FREE TRIAL**
of Pro-face Connect today!

[DOWNLOAD](#)

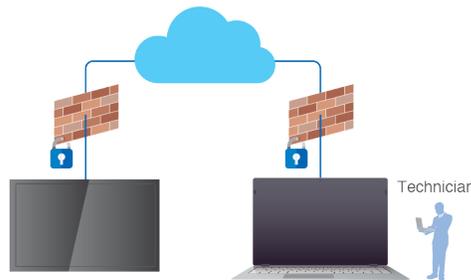

Efficient and easy to use

- Remote access for programming, diagnostics, control, and monitoring
- Speeds up operations and reduces machine downtime

Works everywhere, for everyone

- Operable for all application and segments
- Available from a desktop PC, laptop, or tablet

Reliable and Safe

- Cybersecure (end to end) for both original equipment manufacturers and end users
- Secure access to remote devices over the internet

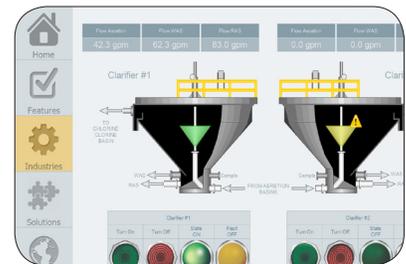

Software Overview

BLUE Line Management Lite SCADA Open Studio

SCADA/HMI Software for Intuitive Dashboards, OEE, and the Internet of Things.

- **PS5000 Bundled**

Available to be bundled with all Pro-face PS5000 Series Industrial PCs

- **Support for Multiple Document Interface on Studio Mobile Access (SMA)**

Access your graphical interface from any device, with groups of screens, popups, and dialogs

- **OPC Redundancy**

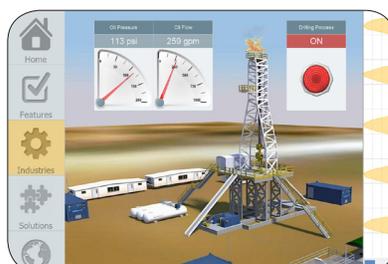

Native redundancy for OPC UA and OPC XML/DA interfaces

- **Built-in Tag Integration with PLCs**

Comprehensive tag integration with PLCs from Schneider and other manufacturers

- **Library of Symbols**

Expanded and improved set of symbols for HMI/SCADA applications

Software Overview

COMING SOON

A revolutionary new HMI software will offer an alternative experience in HMI design.

Other	Microsoft Internet Explorer Ver. 6.0 or later
Other	Mouse (absolutely necessary), DVD-ROM drive (necessary only for software installation)
Other	An environment where you are connected to the internet - Necessary only for online user registration and online update service

* Please address inquiries about the site license to a sales representative.
* A USB port or Ethernet port is required to transfer screens on a PC.

Pro-Server EX

OS	Windows 2000 32bit OS (Service Pack 3 or later, any edition), Windows XP 32bit OS (Service Pack 3 or later, any edition), Windows Vista 32bit OS (any Service Pack, any edition), Windows Server 2003 32bit OS (Standard Edition/Enterprise Edition), Windows Server 2003 R2 32bit OS (Standard Edition/Enterprise Edition), Windows 7 32bit/64bit OS (any Service Pack, any edition), Windows Server 2008 32bit/64bit OS (Standard Edition/Enterprise Edition/DataCenter Edition), Windows Server 2008 R2 32bit/64bit OS (Standard Edition/Enterprise Edition/DataCenter Edition)
CPU	Pentium III 500MHz or greater
Resolution	Pentium III 500MHz or greater
Memory	Pro-Server EX Developer: 256MB or greater Pro-Server EX Runtime: 128MB or greater (256MB or greater recommended)
Hard Disk Space	Pro-Server EX Developer: 1.1GB or greater (2.2GB or greater recommended) Pro-Server EX Runtime: 650MB or greater (1.3GB or greater recommended) * Free space necessary for installation
Language	English/ Japanese
Other Software	Microsoft Excel 2000 - 2010 (for the action function)
	Microsoft Access 2000 - 2010 (for the action function)
	Microsoft Internet Explorer Ver. 5.0 or later (for the action function) .NET Framework Ver. 2.0 * On a PC without .NET Framework Ver. 2.0 This is automatically installed.
Network Connection	10BASE-2, 10BASE-5, 10BASE-T, 100BASE-TX, 1000BASE-T

Remote HMI

OS	iOS: Ver. 6.0 or later. Android: Ver. 2.3x or later
Language	English/ Japanese
Other	GP-Pro EX Ver. 3.1 or later Tablet or smart phone and Wi-Fi required

Movie Converter (EX-MOVCON-LICENSE)

OS	Windows 2000 Professional (Service Pack 4 or later) Windows XP Home, Professional (any Service Pack)
CPU	Pentium III 1 Ghz or greater
Memory	256 MB or greater (512 MB or greater recommended)
Hard Disk Space	For installation: 60MB or greater. After installation: 25MB or greater

GP-Viewer EX

OS	Windows 2000 (Service Pack 3 or later, any edition), Windows Server 2003 32bit OS (Service Pack 2 or later), Windows XP 32bit OS (Service Pack 2 or later, any edition) Windows Vista 32bit OS (any Service Pack, any edition), Windows 7 32bit/64bit OS (any Service Pack, any edition), Windows 8 32bit/64bit OS (any Service Pack, Core/Pro/Enterprise Edition)
-----------	---

BLUE Open Studio

OS*	Windows 7 Service Pack 1, Windows 8.1, Windows 10, Windows Server 2008 R2 Service Pack 1, Windows Server 2012 R2, Windows Server 2016, Windows Embedded 7 Standard
CPU	No requirements
Resolution	SVGA (800 x 600) minimum
Memory	1 GB free memory (RAM)
Hard Disk Space	2 GB free storage (hard drive or non-volatile)
Other	• Standard keyboard & pointer input (i.e., a mouse, trackpad, or touchscreen) • .NET Framework 3.5 • Microsoft Internet Explorer 6.0 or later • Ethernet or Wi-Fi network adapter • Administrator privileges on the computer
	DVD-ROM drive, to install the software from an installation disc
Optional	Serial COM ports & adapters, to be used for direct communication with PLCs and other devices
	Internet Information Services (IIS) installed and turned on, to make your projects accessible to thin clients and mobile devices
	Microsoft Visual Studio 2010 or Team Explorer 2010 installed, to enable workgroup collaboration and source control

* 32-bit/64-bit compatible; We recommend Home Premium, Professional, Enterprise, and Ultimate editions of Windows, because they include Internet Information Services (IIS) as a pre-installed feature that can be turned on. We do not recommend the Starter and Home Basic editions because they do not include IIS, but you can still use them if you do not plan to use web-based features.

WinGP GP-Pro EX Runtime for Pro-face Industrial PCs

OS	For Pro-face IPC: Windows XP (Service Pack 2 or later), Windows XP Embedded, Windows 7, Windows Embedded Standard7, Windows Embedded Standard 2009
