**IndraControl VEH 30**

Hand-held operator panel

**Embedded PC ■ IndraControl VEH 30**

**Documentation**

- Flexible use through hot-plug principle
- Safety functions for man and machine
- Handles with integrated enabling and stop buttons
- Sturdy structure for industrial use
- Optimum ergonomics for reliable fatigue-free handling
- Brilliant 8.4" touchscreen for conven

Irrespective of the particular location – IndraControl VEH 30 allows operation, setup, parameterization and diagnostics via Ethernet TCP/IP. The hot-plug principle facilitates trouble-free connection and disconnection during running operation, while the stop function is reliably overridden. To ensure fatigue-free handling, highest operator convenience and ergonomics were the key factors in the design development. The integrated 3-step enabling button and the 2-circuit stop button are looped in through the junction box VAC 30, thus ensuring maximum safety.

**Technical data**

VEH 30.1	
<b>Processor</b>	
CPU	NS-Geode; 300 MHz (Standard)
Operating system	Windows CE 4.2 (Standard)
<b>Memory</b>	
Application	128 MB
Flash size	128 MB
<b>Display</b>	
Type	TFT
Size	8.4"
Colours/Greyscales	256000
	colours
Resolution	800 x 600
<b>Operation</b>	
Type	Through virtual keyboard
Operation	Touch screen
System Keys	34
operator keys	34
<b>Operation</b>	
Accept Keys	2
	2-circuit, 3-step
	Standard
Stop Key	1
	2-circuit
	Standard
