* UTC-510 (PoE) – A PoE Powered Device (PD) is a device powered by a PSE and thus consumes energy. Please do take a Power sourcing equipment (PSE) which follows IEEE 802.3at PoE standard, also known as PoE+ or PoE plus, provides up to 30W of DC power output. Only 25.5 W input is assured to be available at the powered device as some power dissipates in the cable.
For Standard UTC-510 PoE Version, 1 x USB 2.0 (A port) and 1 x USB 3.0 (E port) are not suggested to use.
The customer can change the configuration only when total power input is under 25.5 W.
