AIM-Android 10 Manual

1 About Manual

Thank you for using Advantech product and AIM-Android 10. This manual is a user manual of AIM-Android 10. This manual may be copied and distributed in any medium, either commercially or non-commercially.

2 Introduction

AIM-Android 10 is developed for Advantech devices based on formal Android 10. It is customized to satisfy users' requirements and to add new functions and features.

2.1 New features

2.1.1 Automatic Installation

In the process of installation, device recognizing can make phase more automatically. It will ensure that the users use Advantech android in Advantech device more comfortably.

2.1.2 Debugging Support

In the Advantech device you can also use adb over USB OTG. It will ensure that the users use debugging in Advantech device more comfortably.

2.1.3 Serial Port Support

We have developed a demo serial port JNI, JAR and utility for users. It can test serial port functions with UI utility.

2.1.4 Pre-installed Third Party Applications

Third party applications are installed as default. It is more convenient for the user.

2.2 Device support list

We currently support the following products: PPC-1XXW

2.3 Preview

After installation, you can see the HOME and application list:

3 Installation

It is easy to install AIM-Android 10 on a hard disk.

3.1 Prepare an Installtion sdcard

CH Intelligent Planet	AIM-Android 10 Manual
船 Rockchip Create Upgrade Disk Tool v1.61	×
First:Choose removable disk Generic MassStorageClass USB Device 14.8G ✓	SDBoot:2.12
Upgrade Firmware PCBATest	SD Boot Restore
D:\iso\windows\AndroidTool\rockdev\update.img	Firmware
Fourth:Choose demo(Option)	Demo
	Create
	Restore

You should click the "Create" button to burn the sdcard.

3.2 Install android 10

AD\4M

Enabling an

- **Step 1**: Please power off in PPC1XX.
- Step 2 : Insert the SD card.
- Step 3 : Power on in PPC1XX.
- **Step 4 :** Installing system update.

Step 5 : Please Remove the SD Card when PPC1XX show the message "Doing Action succeeded. please remove the sdcard......".

Step 6 : Remove SD card.

The Android image will be auto-install.

3.3 Hardware Requirements

The following information represents the requirements necessary to install AIM-Android 10 successfully.

Sdcard Size

- Recommended : 8 G or more

4 Usage

4.1 About SerialPort sample

After installing AIM-Android, you will see a Serial application in App list. Users can test serial port with it.

After starting the application, you will see:

2:09 🖭 🦞			<->₁ [
ComPort			
COM	Port Settings	Receive Windows	
COM Port	/dev/ttyS1		
Baud Rate	1152000		
Common	LoopBack		
ſ	Open		
		Send Windows	
		ĺ	Clean
			Send
		< • •	
		Serial port options	

Usage: choose the port, baudrate.(e.g., ttyS1, 9600)

4.2 About KioskSetting

For Android Kiosk solution, Advantech provide a kiosk setting launch App, user can user this App to set any other android App as kiosk App, kiosk App means it will run in full screen when boot up, navigate bar and status bar of android will hide.

4.2.1 Set the Kiosk Setting app as the default launcher

Just launch the kiosksetting app, the app can be the android default home app. When KioskSetting app starts for the first time, you can see the following screen. Please set the password of kiosk mode according to the prompt information in the dialog box.

Klosk Mode Password Setup Note: The password must be at least 12 characters long and include: an uppercase character, a lowercase character, a digit and a symbol. Password Confirm Password Use a 6- character password SUBMIT CANCEL
