MULTIFRESH® NEXT S

The propane blast chiller, completely customizable according to the needs of each professional choosing functions, type of performance, size of the display and the most useful features for its use.

The MultiFresh® Next blast chiller has up to 12 functions and 150 cycles selected for you by Irinox to preserve the product freshness longer.

Yield

	Standard / Eco Silent	Turbo
Fast cooling (+90°C/+3°C) - within 90 minutes	25 kg	up to+30%
Quick freezing (+90°C/-18°C) - within 240 minutes	25 kg	up to+30%

*Tests carried out in compliance with the Irinox procedure using 5-cm thick beef

Capacity

Number of trays: 8 x GN1/1 o 600x400 (H= 20 mm)

Number of trays: 5 x GN1/1 o 600x400 (H= 40 mm)

Number of trays: 4 x GN1/1 o 600x400 (H= 65 mm)

Standard construction details

- Door opening on the left with hinges on the left.
- Patented concealed hinges.
- Full height door with double bevelled side edges.
- Door opening up to 150°.
- Magnetic and slow closing of the door.
- Equipped with 5-chamber gasket designed for high and low temperatures.
- Core probe with 3 detection points with quick screw connector, anti-corrosion, watertight IP67.
- Magnetic flat surface (400x150 mm) to fix the core probe.
- Easy removal and cleaning of the condenser filter thanks to the tilting grill.
- Ergonomic and robust handle made of steel.
- AISI 304 stainless steel internal and external material.
- Built-in air condensation.
- R290 coolant gas.
- MultiRack®, the patented adjustable tray holder that improves air circulation inside the blast chiller.
- 5 pairs of guides included.
- 4 adjustable feet H 80-115 mm.
- WIFI module included for the HACCP report download.

Operation

2 available configurations:

Essential This is the basic configuration that includes the most known functions of the blast chiller: cooling, rapid freezing, cold storage and non-stop cooling/freezing; regardless of the product introduction temperature, it always guarantees excellent results in terms of quality and uniformity of temperature in the cell.

Excellence The multi-function configuration including 12 functions. In addition to the cold functions present in the Essential configuration, you will find: hot preservation, defrosting, ready-to-serve, low-temperature cooking, chocolate melting, leavening, pasteurization and drying.

- MultiFresh® Next's cooling cycles lower to +3°C the core temperature of the food, introduced at any temperature, even as soon as it is out of the oven, and quickly cross the band of maximum bacterial proliferation, the cause of their natural ageing.
- MultiFresh® Next's freezing cycles transform the water contained in food into microcrystals that preserve its structure and quality for longer.
- Automatic recognition of manual work mode (timed) or automatic mode (with probe).

3 available performance levels

Standard: this performance guarantees a yield of 25 kg in cooling and freezing. In the Essential function, performance is guaranteed by the evaporator and one-speed condenser fans and by one hermetic piston compressor. Combined with the Excellence function, the Standard performance makes use of the 5-speed Electronic Evaporator Fans. Climate class 4 (30°C ambient);

Eco Silent: this performance guarantees a yield of 25 kg in cooling and freezing with a very low level of noise emissions, thanks to the use of both electronic 5-speed evaporator fans, which manage temperatures from -40°C to +85°C, and to the variable speed electronic condenser fans. Climate class 4 (30°C ambient);

Turbo: this performance increases the cooling and freezing capacity by up to 30%, thanks to the use of the 5-speed Electronic Evaporator Fans, which manage temperatures from -40°C to +85°C, 2 hermetic piston compressors and one-speed condenser fan. With climate class 5, it guarantees excellent performance up to 40°C ambient.

Interface

4.3' display with capacitive screen, white LED bar to follow the progress of the running cycle even from a distance.

10' display with capacitive screen, colour LED bar to follow the progress of the running cycle even from a distance. Both displays are equipped with:

- Acoustic signal with adjustable intensity and fixed tone.
- Dashboard customizable with the cycles most used by the customer.
- Ability to customize and/or create new cycles.
- Library with all cycles made by the customer and by Irinox.

Connectivity

FreshCloud® is Irinox's IOT technology that allows you to control and interact with MultiFresh® Next at any time via an APP.

The functions included in the application are:

- Remote monitoring of the cycle in progress: connection status, cabinet temperature, core temperature, kitchen and machine name, cycle ID in progress, cycle and phase progress.
- Remote parameter modification (ventilation, cabinet temperature, core probe temperature, humidity level, phase duration).
- Machine status monitoring: connection status, machine ID, laboratory name, serial number, door status, Sanigen level.
- Push notification system.
- Usage statistics viewing.
- Haccp report download.
- Software update.

Optional

- Sanigen® (Irinox patented sanitization system).
- Water condensation (available only for Turbo performance).
- WIFI printer with 1300 thermal label roll.
- Door opening on the right with hinges on the right.
- 4 wheels, 2 of which with brake.
- Adjustable lowered feet H = 60-80mm
- Pair of additional GN1/1 and 600x400 mm guides.
- Vacuum probe
- Special voltages on request.
- Ethernet board.
- Base support for stacking 2 MF Next S
- Base support for stacking an oven
- Reinforced support surface in 1.5 mm thick stainless steel to support an oven or another blast chiller.
- Unit sent without gas charge.

Product warranty

- 2 years from the date of installation, after sending the installation report, on the parts (see warranty condition).

MULTIFRESH® NEXT S

HEIGHT

		HEIGHT (a)	ADJUSTABLE FEET (b)
Standard feet	mm	870 - 905	80 ± 115
Lowered feet option	mm	850 - 870	60 ± 80
Castors option	mm	888	155

Measures in millimetres

- ★ Main power cable
- ▲ Water drainage corrugated hose $\varnothing 32\text{mm}$
- Ⓐ Water outlet
- Ⓑ Water inlet

ENERGY CONSUMPTION ACCORDING TO EN 17032

Model	MF_NEXT_S (230V-1N+PE 50Hz)			
Type of product	Blast chiller / Blast freezer			
Performance		STANDARD	ECO SILENT	TURBO
Yield per cycle	kg	15	15	25
Energy consumption Blast chilling cycle (STRONG +3 °C)	kWh/kg	0,07 (*)	0,068	0,081
Energy consumption Blast freezing cycle (STRONG -18 °C)	kWh/kg	0,198 (*)	0,192	0,24

INSTALLATION

The blast chiller must be installed following and complying with what is stated in the appropriate installation manual. The contents of the manual must be carefully followed to ensure correct operation and to protect the user's rights under the warranty.

Continuous product development may require changes to specifications without notice.
