## What is Vacuum Fried Green Bean Chips (VF green beans chips)?

Vacuum fried green bean chip (VF green beans chips in short) is a kind of dried green bean chips, keeps the original shape and color of fresh green bean. As a kind of health chips, VF green beans chips are more and more popular in global market.

VF green beans chips are made from well-chosen superior IQF or fresh green bean, using vacuum frying technology, the IQF green bean turned into natural delicious chips after the oil bath. This kind of chips is very light, moisture less than 5%, taste crispy, except oil and sugar, without any other additives, much more healthier, natural and safe.

At the first, VF green bean chips are popular in Japan market, recent years, it is more and more popular in America, Australia, Mid-East and Europe. More and more people would like to choose this kind of chips for their leisure time.

VF green bean chips are up to the mustard of HACCP. All the original and end product are test at any time to ensure the quantity and safety.
