## What is Vacuum Fried Mushroom Chips (VF mushrooms chips)?

Vacuum fried mushroom chip (VF mushrooms chips in short) is a kind of dried mushroom chips, keeps the original shape and color of fresh mushroom. As a kind of health chips, VF mushrooms chips are more and more popular in global market.

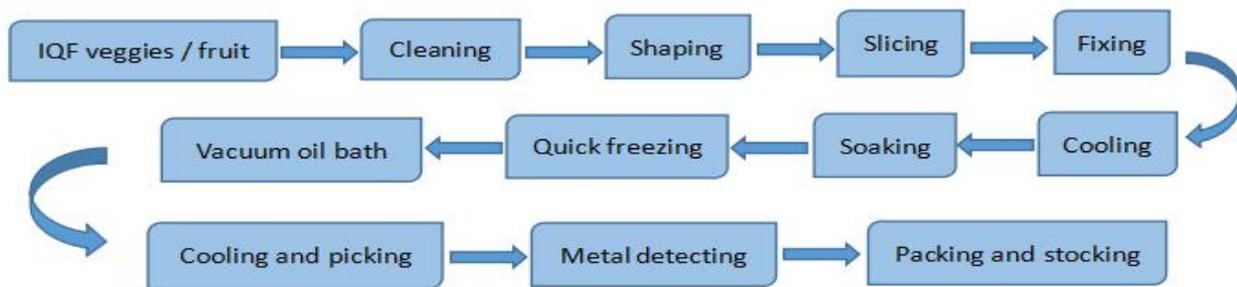

VF mushrooms chips are made from well-chosen superior IQF or fresh mushroom, using vacuum frying technology, the IQF mushroom turned into natural delicious chips after the oil bath. This kind of chips is very light, moisture less than 5%, taste crispy, except oil and sugar, without any other additives, much more healthier, natural and safe.

At the first, VF mushroom chips are popular in Japan market, recent years, it is more and more popular in America, Australia, Mid-East and Europe. More and more people would like to choose this kind of chips for their leisure time.

VF mushroom chips are up to the mustard of HACCP. All the original and end product are test at any time to ensure the quantity and safety.
