What is Vacuum Fried Cauliflower Chips (VF cauliflower chips)?

Vacuum fried cauliflower chip (VF cauliflower chips in short) is a kind of dried cauliflower chips, keeps the original shape and color of fresh cauliflower. As a kind of health chips, VF cauliflower chips are more and more popular in global market.

VF cauliflower chips are made from well-chosen superior IQF or fresh cauliflower, using vacuum frying technology, the IQF cauliflower turned into natural delicious chips after the oil bath. This kind of chips is very light, moisture less than 5%, taste crispy, except oil and sugar, without any other additives, much more healthier, natural and safe.

At the first, VF cauliflower chips are popular in Japan market, recent years, it is more and more popular in America, Australia, Mid-East and Europe. More and more people would like to choose this kind of chips for their leisure time.

VF cauliflower chips are up to the mustard of HACCP. All the original and end product are test at any time to ensure the quantity and safety.
