## What is Vacuum Fried Color Pepper Chips (VF color pepper chips)?

Vacuum fried color pepper chip (VF color pepper chips in short) is a kind of dried color pepper chips, keeps the original shape and color of fresh color pepper. As a kind of health chips, VF color pepper chips are more and more popular in global market.

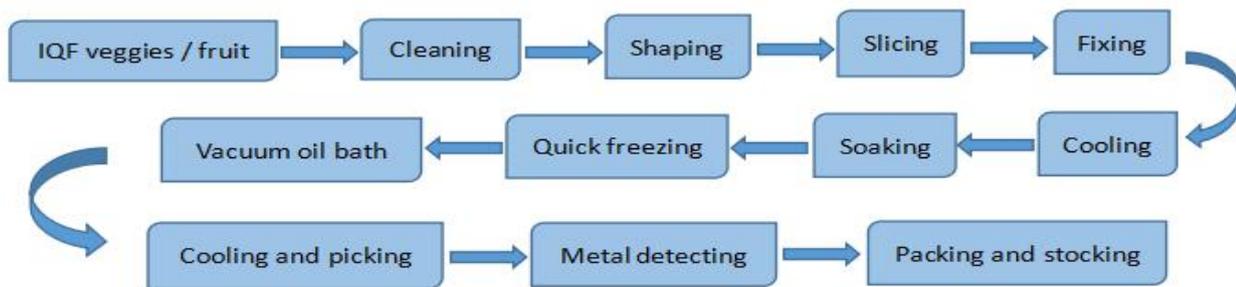

VF color pepper chips are made from well-chosen superior IQF or fresh color pepper, using vacuum frying technology, the IQF color pepper turned into natural delicious chips after the oil bath. This kind of chips is very light, moisture less than 5%, taste crispy, except oil and sugar, without any other additives, much more healthier, natural and safe.

At the first, VF color pepper chips are popular in Japan market, recent years, it is more and more popular in America, Australia, Mid-East and Europe. More and more people would like to choose this kind of chips for their leisure time.

VF color pepper chips are up to the mustard of HACCP. All the original and end product are test at any time to ensure the quantity and safety.
