

Product introduction:

Suitable for electrical products, lamps, electrical cabinets, electrical components, communications products, automobiles, motorcycles and spare parts, outdoor lighting and signal devices and other products to do waterproof performance testing and IP waterproof rating test.

Technical Parameter:

Model	DTK-E710-4	
Internal dimension	Diameter 606 * height 1000mm	Diameter 820 * height 1500mm
External dimension	Diameter 820 * height 2000mm	Diameter 1000 * height 2000mm
Chamber material	304, thickness 3mm	
Water pressure	0 ~ 0.5MPa adopt air compressor	
Test duration	0 ~ 99min, 99sec	
Sample lift device	Portable stainless steel basket	
Water level display	Water pipe with scale	
Controller	Digital pressure gauge & timer	
Power source	Three phase, AC380V, 50/60HZ
