

Rigid Vinyl PVC Film

PVC film roll is a rigid plastic sheet made of polyvinyl chloride (PVC) resin and produced through extrusion production technology. It can be in pieces or rolls according to your needs.

The thickness of PVC film roll ranges from 0.07mm to 1mm. The maximum width that can be produced is 1220mm, and the minimum is 300mm (PVC film roll with a width less than 300mm need to be processed by cutting machine).

Clear PVC film roll is most commonly used in folding boxes and blister packaging. PVC sheet has good dimensional stability, the material maintains good quality during thermal forming, and does not shrink and deform after cooling.

Product Details

For the color of PVC film sheet / roll, we have transparent, transparent colored and opaque colored.

Transparent PVC

Transparent Colored PVC

Opaque Colored PVC

For the surface type of transparent PVC film sheet, we have glossy surface, frosted surface and matte surface.

Compliance

RoHS compliant
REACH compliant
UL 94 V-0

Advantage

Dimensional stability

PVC thermoformed parts are not easy to shrink and deform after cooling

High transparency

good light transmission, no impurities, no crystallization, no flow line

Acid and alkali resistance

stable chemical performance and corrosion resistance

Antistatic

suitable for blister packaging of electronic products

Low water absorption

can be used for all wet environments and wet processing equipment

Good strength

not easy to crack after being folded into a packaging box

Easily fabricated or welded

heating to melt welding, or welding with PVC welding rod

Application

Printing & sign, stationery, thermoforming, blister packaging for toy, commodity, electronic and cosmetics, electrical appliances, gifts, folding boxes.

Specification

Length	Packed in rolls, length can be customized
Width	300mm, 400mm, 500mm, 610mm, 700mm, 915mm, Max. 1220mm
Thickness	0.07mm - 1mm
Density	1.36 - 1.45 g/cm ³
Surface	Glossy, frosted, matte
Color	Blue transparent, crystal clear and colored. Custom colors are available.

Additional Services

Processing services

Cut to size, CNC routing, bevelling, chamfering, laminating, sanding, printing, hot bending, thermoforming, etc.

Protective film

Cover the board with protective film to avoid scratches. Transparent film and custom film with your logo are available. One side or both sides can be covered.

Custom packaging

Our packing materials are as follows, plastic film or PE bags for wrapping, fumigation-free wooden pallet, carton, metal pallet. Custom packaging is available.

Options For Customers

For trader, wholesalers, manufacturers

We are glad to provide you with rigid pvc sheet of different grades and performance, such as common sheets, flame retardant reinforced sheets, pvc sheets for thermoforming, printing, folding box, and antibacterial pvc sheets. The size, thickness and density can be customized according to your requirements. Accept mixed specification shipments.

For online shops, retail stores

We are able to provide rigid pvc sheets with common sizes and custom sizes, such as 4'x6', 4'x8', 18"x24", 24"x36", etc., and pack them into individually packages to facilitate distribution and retail. If your product needs to be sold with other accessories, we have the advantage of resources and are happy to help you purchase, labelling and custom packaging.

For designers, design companies

Supporting services of "products + processing" is our advantage. The rigid PVC sheet can be customized and produced based on your application requirements. We then process the sheets according to your needs, such as die-cutting, printing, vacuum forming etc., and help to test whether the boards meet your standards. Finally to the product proofing and mass production.

What We Do?

Manufacturing, wholesale and custom processing

Boardway has been one of China's top professional manufacturers of plastic sheets since 2006. For 15 years, Boardway has devoted all its energy to the production of plastic sheets.

We have advanced research and development capability, a stable supply capacity, 8 extrusion production lines for foamed PVC board, which can not only meet the fast delivery, but also meet the orders in large quantity. We also have professional technical support and 24/7 high-quality service.

Custom processing is also what Boardway is good at. We provide customers with customized processing services for all plastic products.

For example, to provide customers in the building and decoration industry with CNC cutting, PUR laminating, sanding, chamfering, etc. Provide silk screen printing, UV printing and die cutting for customers in the advertising industry. Provide customers in the manufacturing industry with thermoforming of thermoplastic materials.

China has a large number of suppliers and different product quality, so how to choose a Chinese supplier? Boardway is willing to help you do supplier selection and resource integration.

We have a natural geographical advantage and can help you to confirm the product quality of each supplier, even visit their factory to check the authenticity. What we can do includes sourcing, prototyping, procurement, module assembly, product testing and improvement.
