

PVC Trim Board

Boardway PVC trimboard features a smooth sealed edge that is a more viable and durable alternative to traditional wood in both non-stress and non-load-bearing applications.

The sealed edge has the advantages of being resistant to staining from dirt and grime, and easy to wipe clean. It can be easily sawed, milled, routed, glued and thermal bent to make it perfectly fit for your application, and it can also be painted for aesthetics.

We provide trimboards with smooth finish and woodgrain finish in a variety of sizes, thicknesses, and colors.

SURFACE OPTION

Available in smooth/woodgrain reversible

MULTIPLE THICKNESSES, MULTIPLE WIDTHS

Custom thickness and custom width is available

3/8"	10 mm	3-1/2"	89 mm
1/2"	13 mm	4"	102 mm
5/8"	16 mm	4-1/2"	114 mm
3/4"	19 mm	5-1/2"	140 mm
1"	25.4 mm	7-1/4"	185 mm
		9-1/4"	235 mm
		11-1/4"	286 mm

MULTIPLE COLORS

Custom color is available

PVC Moulding

Boardway PVC mouldings are available in the most popular designs, can be used individually or in combination, give a perfect finish to most interior and exterior decoration application encountered.

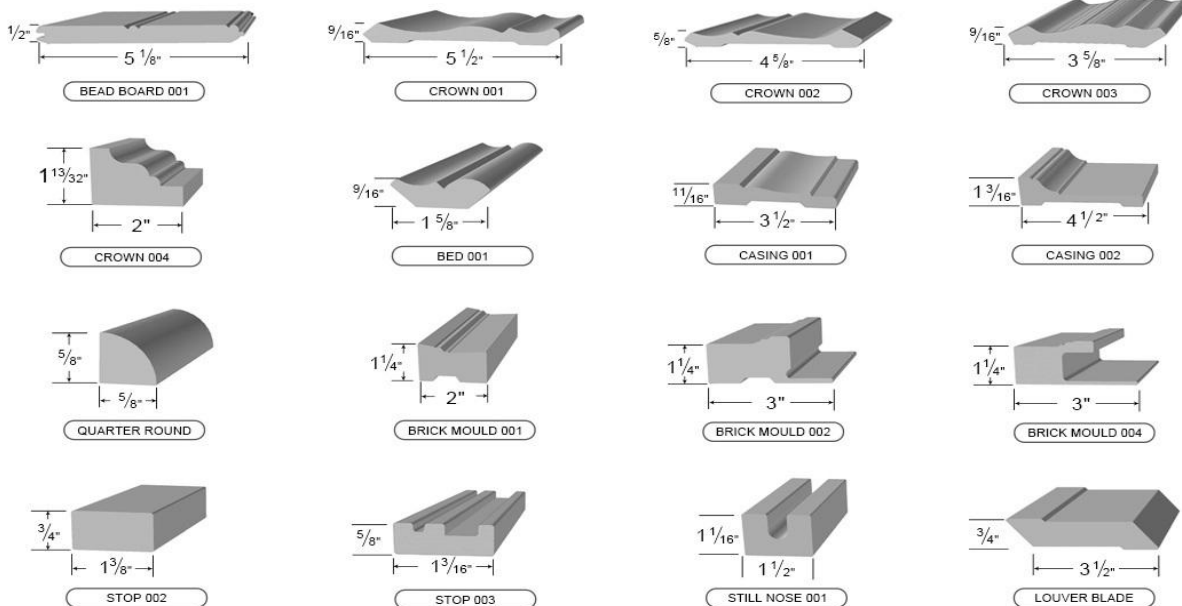

PVC mouldings are looking and working similar to wood mouldings, but has better practical performance such as moistureproof, anti-mildew, anti-moth, extinguish from fire, formaldehyde-free, better durability, and low maintenance.

It is easy and convenient to install with conventional tools, no need to keep screw head marks. Fast installation and short construction period help reduce labor costs and structural costs.

MULTIPLE DESIGNS

More pvc mouldings please contact us for availability

Compliance

ISO 17226-1:2021

RoHS compliant

REACH compliant

ASTM E84-17

ASTM D696-08

GB 8624-2012

Advantage

Lightweight

easy to work with and fast installation

Durable in use

water-proof, mildew-proof, termite resistant and corrosion resistant

Stable structure

no bending or deformation unless there is an external force or load

Nail-holding strength

tighten the screws without slipping

UV resistance

slow aging and yellowing speed in outdoor use

Low water absorption

suitable for outdoor and humid environments

Fire performance

common pvc extrusions is self-extinguishing, and fire-resistant enhanced extrusions meet ASTM E84 Class A

Strong processability

can be easily drilled, nailed, sawed, cut, planed, glued, sanded, painted

Application

Exterior finish: porch ceilings & soffits, window & door trim, corners, column wraps, cornices & eaves, garage door trim, side fascia

Column

Garage Door

Eaves

Balcony Shutter

Interior finish: crown mouldings, casing & base, wall & wainscoting, skirting board, coves & quarter rounds

Wall

Ceiling

Door Frame

Crown Molding

Options For Customers

For building material wholesalers

We are glad to provide you with all kinds of expanded PVC boards and extrusions, such as PVC trim and mouldings, PVC celuka foam board, PVC co-extruded foam board. The size, thickness and density of expanded pvc board can be customized according to your requirements. Distribution packaging and protective film are custom packing options. Accept mixed specification shipments.

For builders and contractors

PVC foam board, PVC trim and mouldings can be processed into directly usable lengths and shapes according to your requirements. Our custom processing services include cutting to size, CNC routing and milling, bevelling, chamfering, laminating, sanding, printing, hot bending, etc.

For architects, engineers, designers

Supporting services of "products + processing" is our advantage. The expanded PVC boards and extrusions can be custom produced and processed based on your application requirements. If there are other accessories you need to purchase in China, we have resource advantages and are willing to help you purchase, assemble, pack and ship.

Welcome to our website to view more custom services.

What We Do?

Manufacturing, wholesale and custom processing

Boardway has been one of China's top professional manufacturers of plastic sheets since 2006. For 15 years, Boardway has devoted all its energy to the production of plastic sheets.

We have advanced research and development capability, a stable supply capacity, 8 extrusion production lines for foamed PVC board, which can not only meet the fast delivery, but also meet the orders in large quantity. We also have professional technical support and 24/7 high-quality service.

Custom processing is also what Boardway is good at. We provide customers with customized processing services for all plastic products.

For example, to provide customers in the building and decoration industry with CNC cutting, PUR laminating, sanding, chamfering, etc. Provide silk screen printing, UV printing and die cutting for customers in the advertising industry. Provide customers in the manufacturing industry with thermoforming of thermoplastic materials.

China has a large number of suppliers and different product quality, so how to choose a Chinese supplier? Boardway is willing to help you do supplier selection and resource integration.

We have a natural geographical advantage and can help you to confirm the product quality of each supplier, even visit their factory to check the authenticity. What we can do includes sourcing, prototyping, procurement, module assembly, product testing and improvement.
