THE BESPOKE PROCESS

We can offer a complete bespoke fireplace design and hand crafting service. If you have an idea for a fireplace, would like to combine elements from a few different fireplaces, match your fireplace with other architectural elements or you have a picture of an antique fireplace that you would like to have replaced or reproduced, then we would be happy to help.

STEP 1:

Prior to commencing production, we would produce a technical drawing for review and approval.

STEP 2:

Once the technical drawing has been agreed, our experienced team of stone masons and carvers will produce your fireplace using time honoured tools and methods lending the fireplace both a traditional and unique quality.

STEP 3:

All of our fireplaces are expertly assembled and polished by hand to ensure that the finished result is absolutely perfect.

NATURAL STONE SWATCHES

We source some of the finest material and quarries all over the world, including limestone, travertine , Italian white marble such as Statuary, Carrara and Arabescato, and a variety of coloured marble.
