

TRUNK STORAGE BOXES

Vehicle-Specific Storage Solutions

POLYREFLEX HI-TECH CO., LTD.

SMART STORAGE | PRECISE FIT

Polyreflex develops vehicle-specific automotive storage boxes designed to make better use of underutilized spaces inside vehicles. By utilizing existing spaces in rear trunks, front trunks and beneath seats, our solutions create additional storage capacity while maintaining a neat, integrated appearance.

With designs developed for nearly 300 vehicle models, our product range addresses different vehicle layouts and storage requirements. Each storage box is designed to match the contours and available space of its intended vehicle model.

For products requiring hardware for assembly or vehicle mounting, we can also supply the necessary fasteners to support installation.

- **Designed for Nearly 300 Vehicle Models**
- **Efficient Use of Existing Vehicle Space**
- **Multiple Vehicle-Specific Storage Locations**
- **Hardware & Installation Support**
