

Hydraulic Power Pipe Cutters

QG8C-A

Product Description

- The Model QG8C-A Hydraulic Power Pipe Cutter cuts 2" to 8" schedule 10/40 steel pipe, galvanized pipe at the job site or in the shop. The operator controls the feeding rate by pumping the hydraulic pump throughout the operation.
- The QG8C-A cuts pipes with clean cutting edge, no spark, dust or open flame. The processed pipes can be threaded or grooved with no extra processing. An induction motor insures very quiet operation.

Features

- Easily cuts by displacing instead of removing pipe material.
- No abrasive dust, dangerous spark, or open flame.
- Quickly cuts steel pipe with minimal burr.
- Great for cutting pipe for groove joining.
- Heavy-duty design is perfect for field or shop use.
- Quiet operation.
- Hongli Reinforced Alloy cutting Wheel which is suitable to squeeze.
