## Membrane Structure

*Create your own custom  
shading and  
all-weather canopies.*

### Tensile Membrane Structure

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| Yarn              | 1000*1000D 1300D*1300D                                                                   |
| Type of Coating   | PVC coated on both sides                                                                 |
| Weight            | 1100g/m <sup>2</sup> ; 1400g/m <sup>2</sup> ; 900g/m <sup>2</sup> ; 1050g/m <sup>2</sup> |
| Width             | UP TO 3.2M                                                                               |
| Tensile strength  | 5500/5200 N/5CM; 7200/7000 N/5CM; 4200/3900 N/5CM; 4500/4200 N/5CM; 4800/4400 N/5CM      |
| Tear strength     | 650/550N/5CM; 750/700N/5CM; 550/500N/5CM; 600/500N/5CM; 500/450N/5CM                     |
| Adhesion Strength | 120N/5CM; 160N/5CM                                                                       |

- Knife Coated technology
- Good strength, good flexibility and adhesion strength
- Outstanding tearing strength for welding
- UV resistant , FR
- Cold resistant, Anti-Mildew
- Lacquered are available as requests
- Color, weight can be customized
