# TREE WATER BAG

## RELIABLE DRIP WATERING BAGS

Tree Watering Bag offer perfect solution to get the right amount of water to your plants without soaking them in the process or wasting water due to run-off and evaporation. This watering bag keeps the dirt around the tree wet, but not the trunk so you don't need to worry about causing your trees rot. The water automatically seeps out through small holes of the bottom and will be directly absorbed into the root system.
