

# PLASTUF

## SNOW REMOVAL TARP:

The Plastuf Snow Removal tarps are the best way to keep construction sites free of snow. Place the tarp out before the snow hits and remove it when you're ready to work. Just simply attach the loops or rings to a crane or lift and all the snow will be out of your way in minutes.

## SNOW TARP SPECIFICATIONS SHEET

SPECIFICATIONS SHEET	
Tarp Cut Size	20' x 20'
Tarp Weight	65 pounds
Webbing	6000 lb. rating
Fabric Type	PVC Coated Polyester (Woven)
- Weight (FS-191-5041)	18.5 oz / yard <sup>2</sup>
- Thread Count (Warp x Fil)	18 x 17 (1000D x 1300D)
- Tensile Strength, Grab Method (lbs.) (FS-191-5100)	Warp 410 x Fill 410
- Tensile Strength, Strip Method (lbs.) (FS-191-5102)	Warp 300 x Fill 300
- Tear Strength, Tongue Method (lbs.) (FS-191-5134)	Warp 100 x Fill 100
- Adhesion (lbs. / inch <sup>2</sup> ) (FS-191-5970)	Warp 100 x Fill 100
- Abrasion Resistance (lbs. / inch <sup>2</sup> ) (FS-191-5306)	400 Cycles
- Hydrostatic Resistance (lbs. / inch <sup>2</sup> ) (FS-191-5512)	At least 600 PSI
- Cold Crack (FS-191-5874)	-40° F
- U.V. Resistance (Weather-O-Meter)	No Excessive Fading After 300 Hours
- High Temperature Resistance (FS-191-5872)	180° F (Does Not Block)
