Product Information

DEVICE INFORMATION

【 Equipment name 】

Automatic multi-functional double-headed
pressed end dip tin machine

【 Operating Voltage 】

AC220V/50HZ

【 Dimension 】

(1920+L) *1520*1750

【 Equipment weight 】

500kg

【 Rated Current 】

15A

【 Productivity 】

800PCS/h(12P in line)
Machine can work 24 hours

【 Language System 】

Chinese, English, Korean, and more
than ten other languages

【 Working air pressure 】

0.5-0.7Mpa, dry

Cutting length:45-1000mm(length can be customized)

Front end peeling length:peeling 0-8mm

Back-end peeling length: peeling 0-8mm

Wire type: AWG30#-18# electronic wire

【 Maximum line width 】

28mm

【 Max. number of P 】

24P

Note: [Special function] twist wire, dip tin function

Machine configuration list

Serial No	Accessory Name	Accessory Brands
1	PLC	FATEK
2	Servo Motor	Mitsubishi/FATEK
3	Stepper motors	Leadshine/Bavaria
4	Pneumatic	SMC/AIRTAC
5	Testing	Pressure management device can be added

Product Selling Point Analysis

Good products to tell you in detail

01

FATEK /Servo Motor

02

Complete wire wheel

Can organize the wire to ensure that the wire is straight
Wire splitting port,
can be easier to split the wire

03

Smart Touch Screen

Foolproof operation, you can set any parameters

04

Terminal Blades

Jurong brand original design, service life up to 500,000 times
Wire stripping knife service life of 300,000 times

05

SMC air pressure gauge

Japanese SMC air pressure gauge,
below normal air pressure
will alarm in time

06

Gas tank

Storage air pressure also plays the role
of balancing air pressure. Avoid unstable
air pressure caused by hitting the terminal
quality problems

Product details show

Humanized details think what you want

01 Power supply: Meanwell

02 Transformer: custom brand with the same model

03 Exclusive patented mold

04 Air gun

Finished product effect
