# Product Parameter

<b>Equipment name</b>	TR-5F Upright Wire Stripping Machine		
<b>Working Air Pressure</b>	3-7kg	<b>power supply</b>	AC220V / 50Hz
<b>weight</b>	22kg	<b>size</b>	330x240x330mm
<b>Max. stripping length</b>	25mm	<b>Max. wire diameter</b>	4mm

## Characteristics

Suitable for multi-core wires, row of wires cut and peeled in one moulding, fast speed, can be half peeled full peeled.

## Product Details

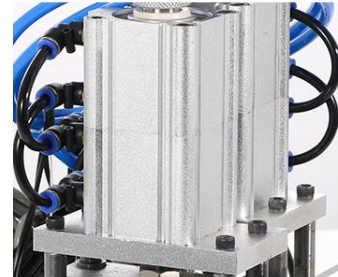

### Pneumatic regulating valves

Adopting high quality air pressure regulating valve, oil and water separation, filtering water and gas, impurities, prolonging the service life of the equipment.

### Quality Cylinders

Adopting thickened hard oxidised aluminium alloy cylinder, with strong sealing performance and durability.

### Adjustment of stripping knives

The length of the core wire is controlled by twisting the regulating valve on top of the cylinder to the left or right to control the core wire.

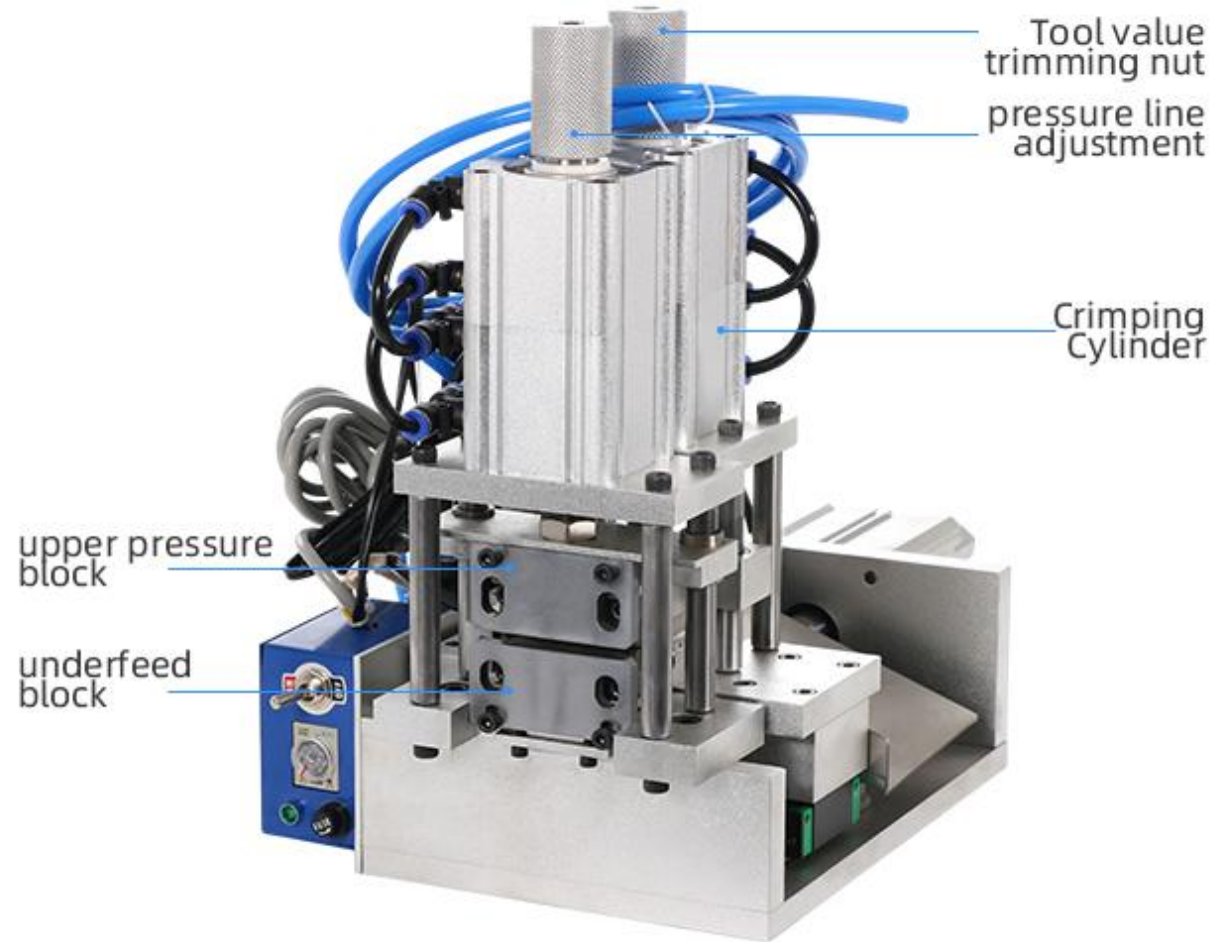

### solenoid

Accurate control of the direction and flow of airflow .  
High precision and flexibility of control
