

Digital Thermometer

Composed of temperature sensor, liquid crystal display, button battery, integrated circuit and other electronic components.

Description:

Type: Flexible head/Hard head, Waterproof

Range: 32.0°C-42.9°C (90.0°F-109.9°F)

Accuracy: $\pm 0.1^\circ\text{C}$ between 35.5°C-42.0°C ($\pm 0.2^\circ\text{F}$ between 95.9°F to 107.6°F)

Feature: Convenient reading, short measurement time, high measurement accuracy, harmless to human body and surrounding environment
