

Hand Extruder RYH3400E: Strong and Affordable

The RYH extruder plays to its strengths in plastics plants, tanks and underground engineering. It comes into its own for welding complete containers, facilities, pipe constructions or landfill sites. You can achieve high-quality work on all common plastic projects.

RYH3400E

- ✓ Extrusion motor overload protection
- ✓ Rotating handle
- ✓ 360° adjustable welding shoes
- ✓ Extrusion motor HIKOKI

Rated Voltage	230V, 50/60HZ
Extruding Power	800W
Hot Air Power	3400W
Rod Heating Power	/
Hot Air Temperature	20 - 630°C
Output (PE/PP)	2 - 2.5 kg/h
Welding Rod	Φ 3/ Φ 4 mm
Weldable Materials	Polyethylene, Polypropylene
Net Weight	6.0 kg
Extrusion Motor	HIKOKI
Warranty	1 Year
