

# Qingdao Zhongbang Packaging Co.,Ltd

## Profile

Zhongbang Packaging is a professional flexible package manufacturer, which focus on all kinds of laminated plastic, aluminum bags and food packaging bag with high quality and competitive price. Zhongbang Packaging has advanced production equipment and strong production capacity. The factory covers an area of about 100,000 square meters, class 100,000 dust-free workshop, all of the packaging bags comply with ISO 9001, ASTM, FDA, EEC food and pharmaceutical plastic packaging standards.

- Four printing production line can make gravure printing up to 10 colors.
- Print max width is up to 1200mm
- Three laminating machine
- Ten Bag Making Product Line.
- Daily production capacity reaches more than 20 tons
- The maximum finished bag width can reach 100mm

**Give us a call or send us an email and we do all the rest !**

## Printing Machine

Max Width:1200mm

Printing Speed:max 280m/min

Printing Color:1-10colors

The printed color is bright, delicate and realistic, making the product's external image more beautiful.

---

## Laminating machine

The max laminating width is 1200mm. The world's advanced solvent-free spray technology. The material used in the production process do not contain diluents such as ethyl ester, isoacetone, and methanol, so that the bags are free of the chemical composition.

---

## Bag Making Machine

With heavy pressre balance technology, the high-speed bag making equipment can produce 200 pccs bags per minute, During the production, the pressure is increased, the finished bag is flat, Lower defective rate,better result.

### Stand up Pouch

<i>Feature</i>	With horizontal support, can stand on its own, display products better.
<i>Application</i>	Snack, dried fruit, coffee, fruit juice, beverage, jelly, jerky and condiment etc.

### Aluminized Bags

<i>Feature</i>	High barrier, light proof, High and low temperature resistance, airtight, soft.
<i>Application</i>	Food, medicine, biochemical or Oxygen and UV protection products.

### Retort Pouch

<i>Feature</i>	can be sterilized in high temperature (usually at 120~135°C).
<i>Application</i>	Mainly used for the packaging of perishable foods, can maintain the original flavor of food well, and extend shelf life.

### Flat Bottom Pouch

<i>Feature</i>	High barrier, airtight, moisture proof, puncture and tear resistance.
<i>Application</i>	Food, coffee, dried fruit, snack, frozen food, seafood, candy and pet food etc.

## Aluminum foil bag

<i>Feature</i>	Water proof, airtight, fresh-keeping, strong mechanical performance ,can be made into various types of bags
<i>Application</i>	Food,meat,seafood,frozen food, consumer goods, Industrial products etc

## Kraft paper bag

<i>Feature</i>	the most environmentally friendly packaging bag, non-toxic, odorless, non-polluting and easy to degrade.
<i>Application</i>	Food,coffee, ,dried fruit,supplements, tea or pharmaceutical additives.

## Vaccum Bag

<i>Feature</i>	Vacuum can be used to prevent the product from reacting with oxygen in the air.
