Material Reference:

PAB-0002- (3 ears Belly Binder) (Repair diastasis recti & speeding up the closing process)

Solid model:

Flat lay photo:

Material name: ① HOOK & LOOP closure ② Sticky Wool surface
 ③ Lumbar part (straight design) ④ Elastic rib fabric

DESCRIPTION: It's 4 layers combed yarn quilted cotton, 3 ears can be adjustable flexibility, but Cover C-section Incision is weaker than 2 ears belly binder of PAB-0001, suitable for natural birth.
The function of "Belly Binder" is to make the belly smaller with compression. Light compression from abdominal binder can support your natural transverse abdominal when you can't contract it yet and also slowly bringing the belly back to the spine. The role of belly binder is your transverse abdominal muscle.
Can customize 6 layers combed yarn quilted cotton
