

2"~12"

GM-2X Electric Hydraulic Groove Reforming Machine

Design Features

- This machine is suitable for 2" ~ 12" steel pipe end flare shaping process. It can be used for Tee, elbow, reducer and other pipe fittings shaping, suitable for workshop and construction site use. Built-in hydraulic station can automatically complete the shaping work.
- The machine is built with high-quality materials and components, ensuring its durability and long-term reliability in industrial settings.
- The pipe fitting forming machine is equipped with safety features to protect operators and prevent accidents during operation.

Specifications

Fabrication Capacity:	2"~12"(DN50~DN300,Φ60~Φ325)
Max Pipe Wall Thickness:	10mm
Output Pressure:	20T
Motor:	2200W 3Ph
Gross Weight:	760kgs
Packing Size:	170*94*120cm

Drive Unit

Catalog No.	Phase	Power	Voltage	Frequency
999061	3Ph	2200W	380V/415V/480V	50/60Hz

Standard

Catalog No.	Description		N.W (kg)
998131	Reforming dies	Φ60.3	0.25
998132	Reforming dies	Φ73	0.35
998133	Reforming dies	Φ88.9	0.50
998134	Reforming dies	Φ114.3	0.60
998135	Reforming dies	Φ141.3	0.70
998136	Reforming dies	Φ168.3	0.80
998137	Reforming dies	Φ216.3	1.00
998138	Reforming dies	Φ219.1	1.20
998139	Reforming dies	Φ267.4	1.50
998140	Reforming dies	Φ273	1.60
998141	Reforming dies	Φ318.5	1.80
998142	Reforming dies	Φ323.9	2.00
998026	Foot Switch		1.50

Optional

Catalog No.	Description		N.W (kg)
998143	Reforming dies	Φ76.3	0.30
998144	Reforming dies	Φ139.8	0.65
998145	Reforming dies	Φ165.2	0.75
