

Lockout Tagout Tags are labelling process that is always used when lockout is required. They are OSHA compliant and communicate safety and lockout information at the point of need. These tags come in a variety of materials to suit your specific lockout/tagout (LOTO) needs. You can also create your own custom tag for an application specific message.

Scaffolding Tag Holders comply with OSHA's regulations and are designed to be attached to the scaffolding and will hold our green tags. When the tags are removed, it warns people not to use the scaffolding.

Lita Lock

Keeping workers safe

Lita Lock, a China based manufacturer, since 2017, active in manufacturing safety padlocks, electrical lockout, valve lockout, lockout station, tags and other lockout & tagout for global partners.

To help customers compliance with OSHA Standard 29 CFR 1910.147, Lita Lock does not only offer design, production and final assembly, but also a complete lockout & tagout solution for various industries.

Lita Lock pursues the competitiveness on creative, quality control, technology and sustainable development. As the founder of Lita Lock, Iris Chen says: “Many things have changed, but one thing that has not—our original intention to start businesses: keeping workers safe.” Together, we make work environments safer.
