EXCELLENCE  
FOR YOU

## About Hyamed

"We offer innovative and enhanced safe products to customers and physicians."

Located in Geneva, Switzerland, Laboratories Hyamed SA is specialized in designing, manufacturing, and distributing implantable and injection medical devices in the fields of plastic and aesthetic surgery, dermatology, and anti-aging.

Hyamax®

The patented technology of Hyamax® injectable crosslinked hyaluronic acid filler has been developed by scientists and engineers specialized in biopolymers and injectable medical devices for over 15 years, who are from Germany, Switzerland, France, the USA, Canada, and Japan.

The quality management system of Laboratories Hyamed SA is certified against ISO 13485 and Hyamax® has obtained CE certification of EU.

Originated from Switzerland, Hyamed's new product -- monophasic crosslinked sodium hyaluronate gel, applies a world-leading technique.

Hyamed strictly abides by the regulations of the CFDA and the EU and strives for more innovative and safer products.

Hyamax®

● Hyamax®  
Plus Fine

● Hyamax®  
Plus Extra Deep

● Hyamax®  
Plus Deep

● Hyamax®  
Plus Lips

## CE Certified Dermal Filler

**USED AT:**Glabella wrinkles/upper eyelid/temporal zone/nasolabial folds/ marionette fold/perioral wrinkles

- 20mg/ml, BDDE Crosslinked Hyaluronic Acid
- 2×1.0ml
- 27G needle

Hyamax®  
Plus Deep

## Hyamax® VOLUMIZER

Using the latest Swiss patented crosslinking technology, the mono-phasic filler is smoother and presents a three-dimensional network structure. Excellent cohesion enables no tendency of the filler to disperse and flow in water and body fluids, achieving higher stability and the best volumizing and contouring effect.

✓ USED AT: Cheek/chin

- 20mg/ml, BDDE Crosslinked Hyaluronic Acid
- 2×1.0ml/2×2.0ml
- 27G TSK needle

## Hyamax® SKIN BOOSTER

By directly replenishing crosslinked hyaluronic acid to the deep dermis, Hyamax® Skin Booster can improve skin structure, activate fibroblast, stimulate collagen regeneration, restore skin vitality, and constantly moisturize the skin, which can effectively reduce the fine lines and make the skin moisturized and radiant.

- 20mg/ml, BDDE Crosslinked Hyaluronic Acid
- 2×1.0ml or 2x2.0ml
- 27G needle
- 3 treatment sessions at 30-day interval followed by treatment every 2 months

BE WHAT YOU WANT TO BE

## Hyamax® PURE

Hyamax® Pure is used to improve the hydration, elasticity and radiance of the skin by filling fine lines.

**USED FOR:** Face/neck/back of hands

- 1×2.0ml
- 12.5mg/ml, non Crosslinked Hyaluronic Acid

## Hyamax® CONTOUR

Hyamax® Contour and Contour L-plus are high viscosity dermal fillers for treatment of body rhytides and lipoatrophy with/without 0.3% by weight of lidocaine hydrochloride.

**WITH 0.3% LIDOCAINE: CONTOUR L-PLUS**

**USED AT:** Buttocks/breasts

- 25mg/ml, BDDE Crosslinked Hyaluronic Acid
- 2×2ml / 1×10ml

**WITHOUT 0.3% LIDOCAINE: CONTOUR**

# Hyomax® HYAVITAL

**Technology:** Non crosslinked high-molecular-weight hyaluronic acid (H-HA) and non crosslinked low-molecular weight hyaluronic acid (L-HA) are mixed under certain conditions including high temperature,to form strong hydrogen bonds to get crosslinked while without using BDDE.

**Composition:** 32 mg (H-HA) + 32 mg(L-HA)/2 ml

**Indication:** Hydration and Lifting for Facial Sag- ging/Neck Lines/ Skin Aging/ Skin Laxity

- 2x1.0ml/2x2.0ml
- 3 treatment sessions at 30-day interval followed by treatent erery 2 monts
- Reversing Time by 5 Points (Bio Aesthetic Points)
