

Floral illustrations in the top corners of the page. The top-left corner features a cluster of small, five-petaled flowers with leaves. The top-right corner shows a large, detailed rose with many petals and leaves.

Hyomax[®]

Hyomax®

We take care of people with cutting-edge aesthetic medicine products, inspired by slow luxury, for safe, long-lasting and respectful beauty.

At Hyamed we want to be a point of reference in the world of aesthetic medicine: an international company committed to the production of safe and high-performance non-surgical solutions, but also a scientific laboratory sensitive to changes in the times and attentive to the needs of the world, whose constant work bears the reassuring signature of “Originating from Switzerland.”

Hyamax®

Every face dares to shine

Enhance natural beauty and slow-luxury lifestyle
through our cutting-edge medical products,
manufactured with Swiss precision and care.

Hyamax milestone

2011

Established in Geneva,
Switzerland.

2012

Obtained CE
certification & ISO
13485 certification.

2013

Collaboration
with universities
on medical aesthetic
product design
and development.
University of Geneva
in Switzerland;
FE Life Science
Foundation;
University of Savoie
Mont Blanc in France,
etc.

2016

Lidocaine series
products were
launched.

2020

Volumizer launched into market. The monophasic crosslinked HA product.

2021

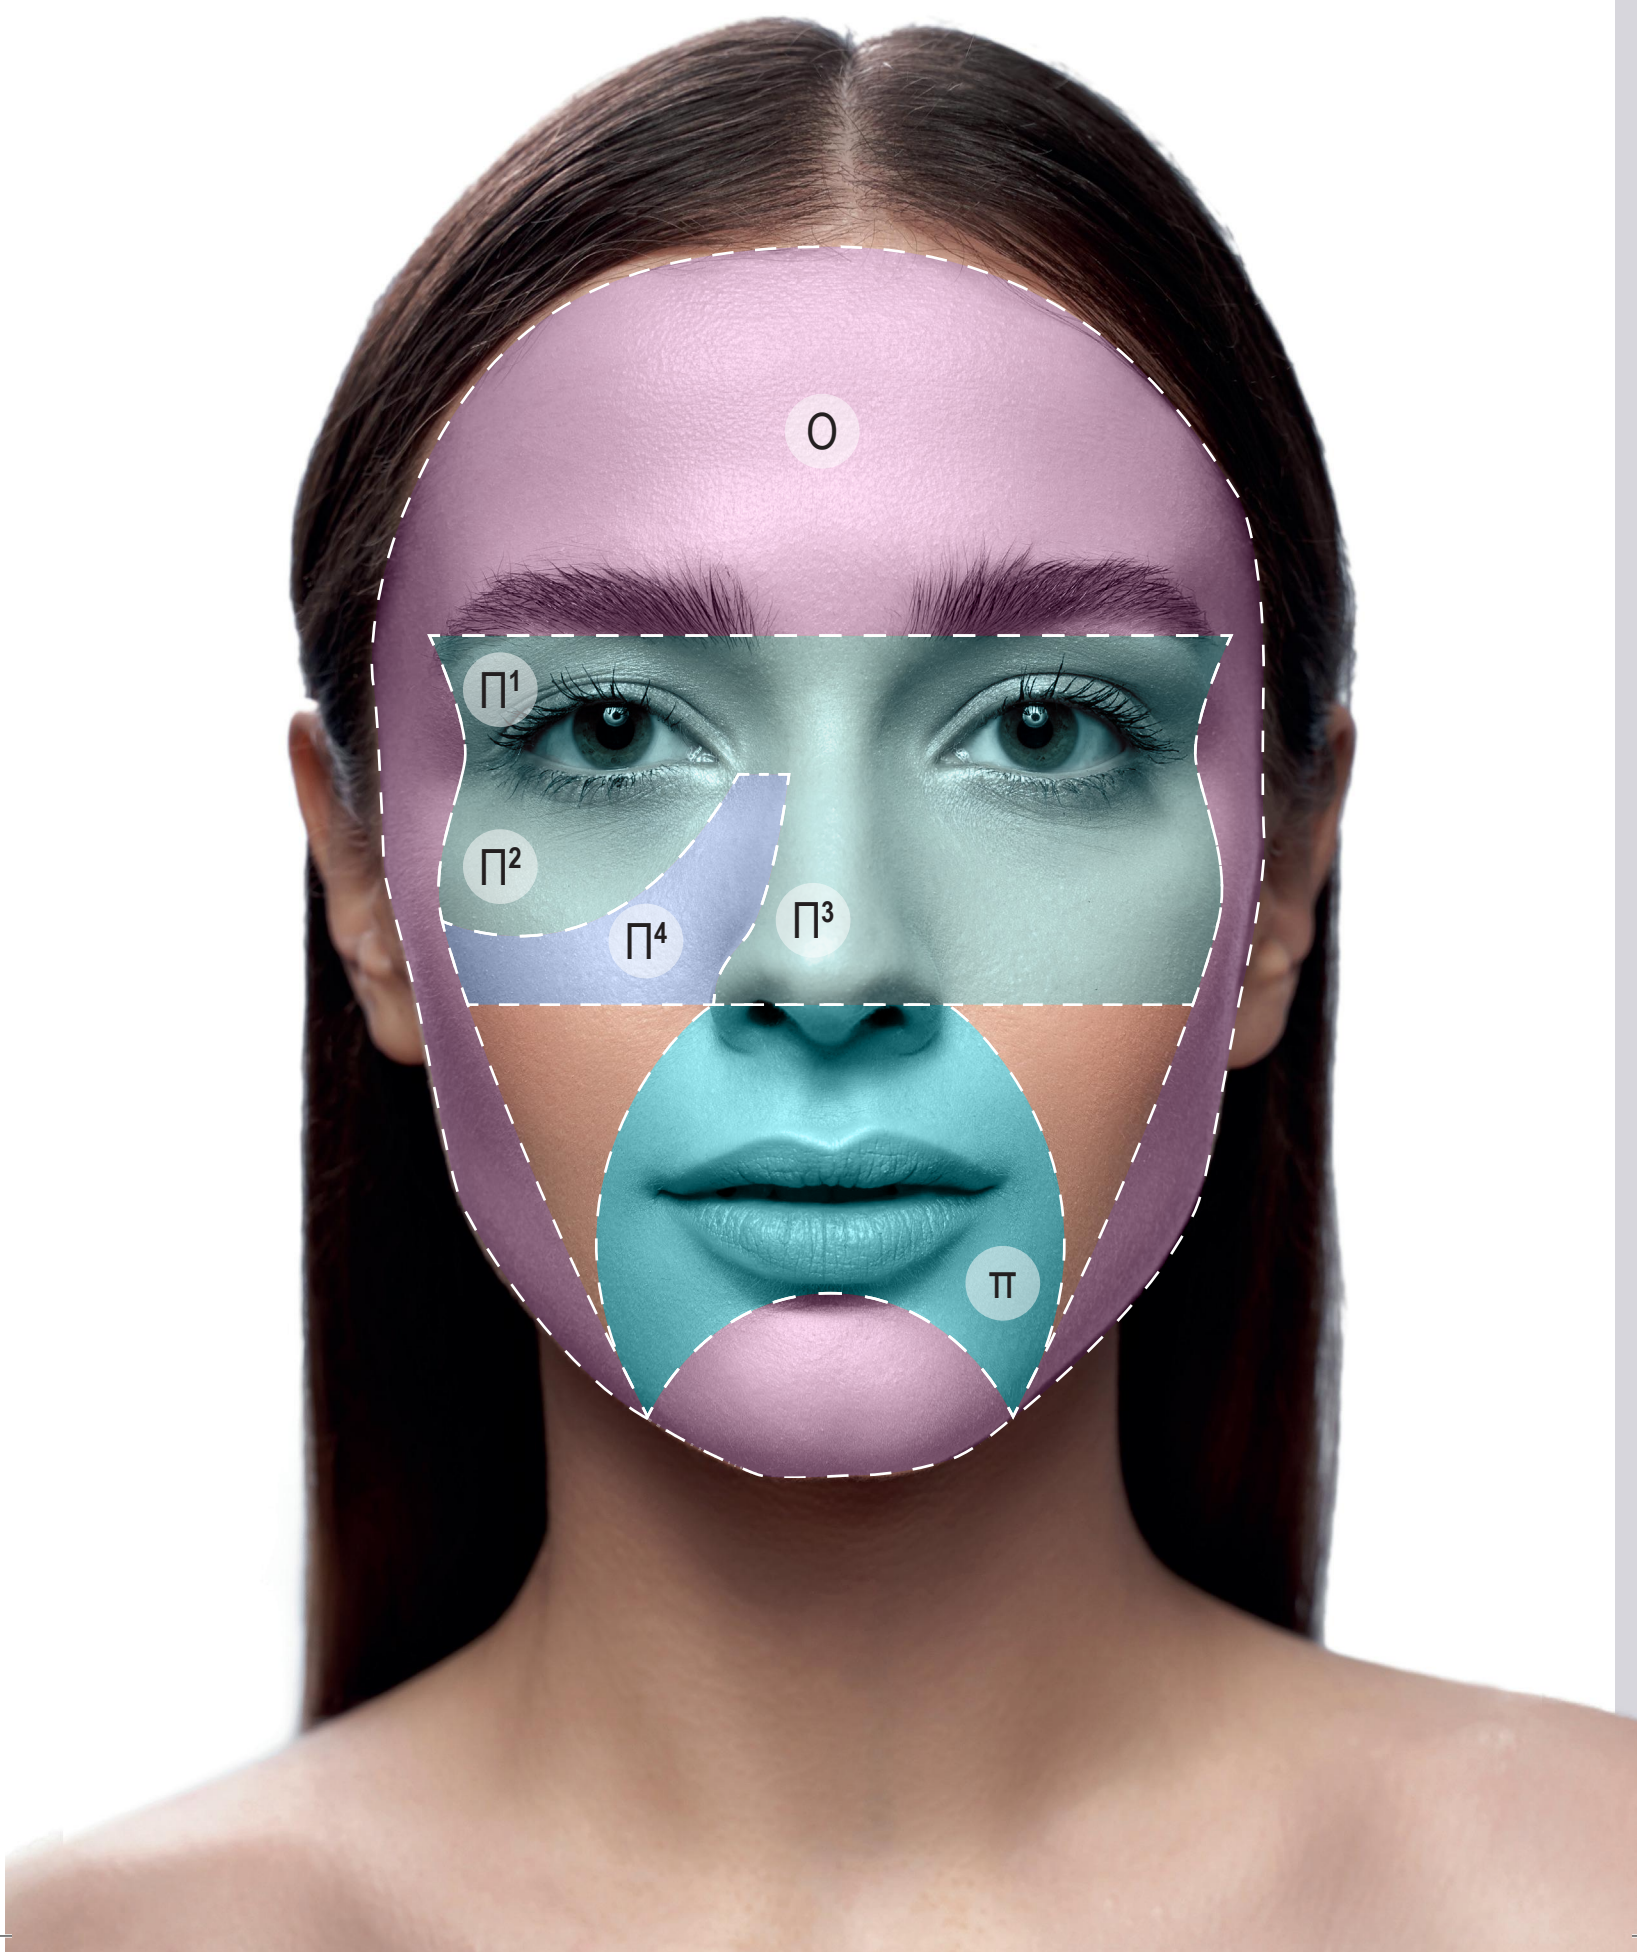

Mesotherapy products launched.

2024

- 6 new products are in the preparation stage and will be launched soon.
- Volumizer in the process of MDR.
- The official release of Hyamax Volumizer in China.
- French factory in preparation.

2025 2030

7-8 Class III products to be released.

Injection overview

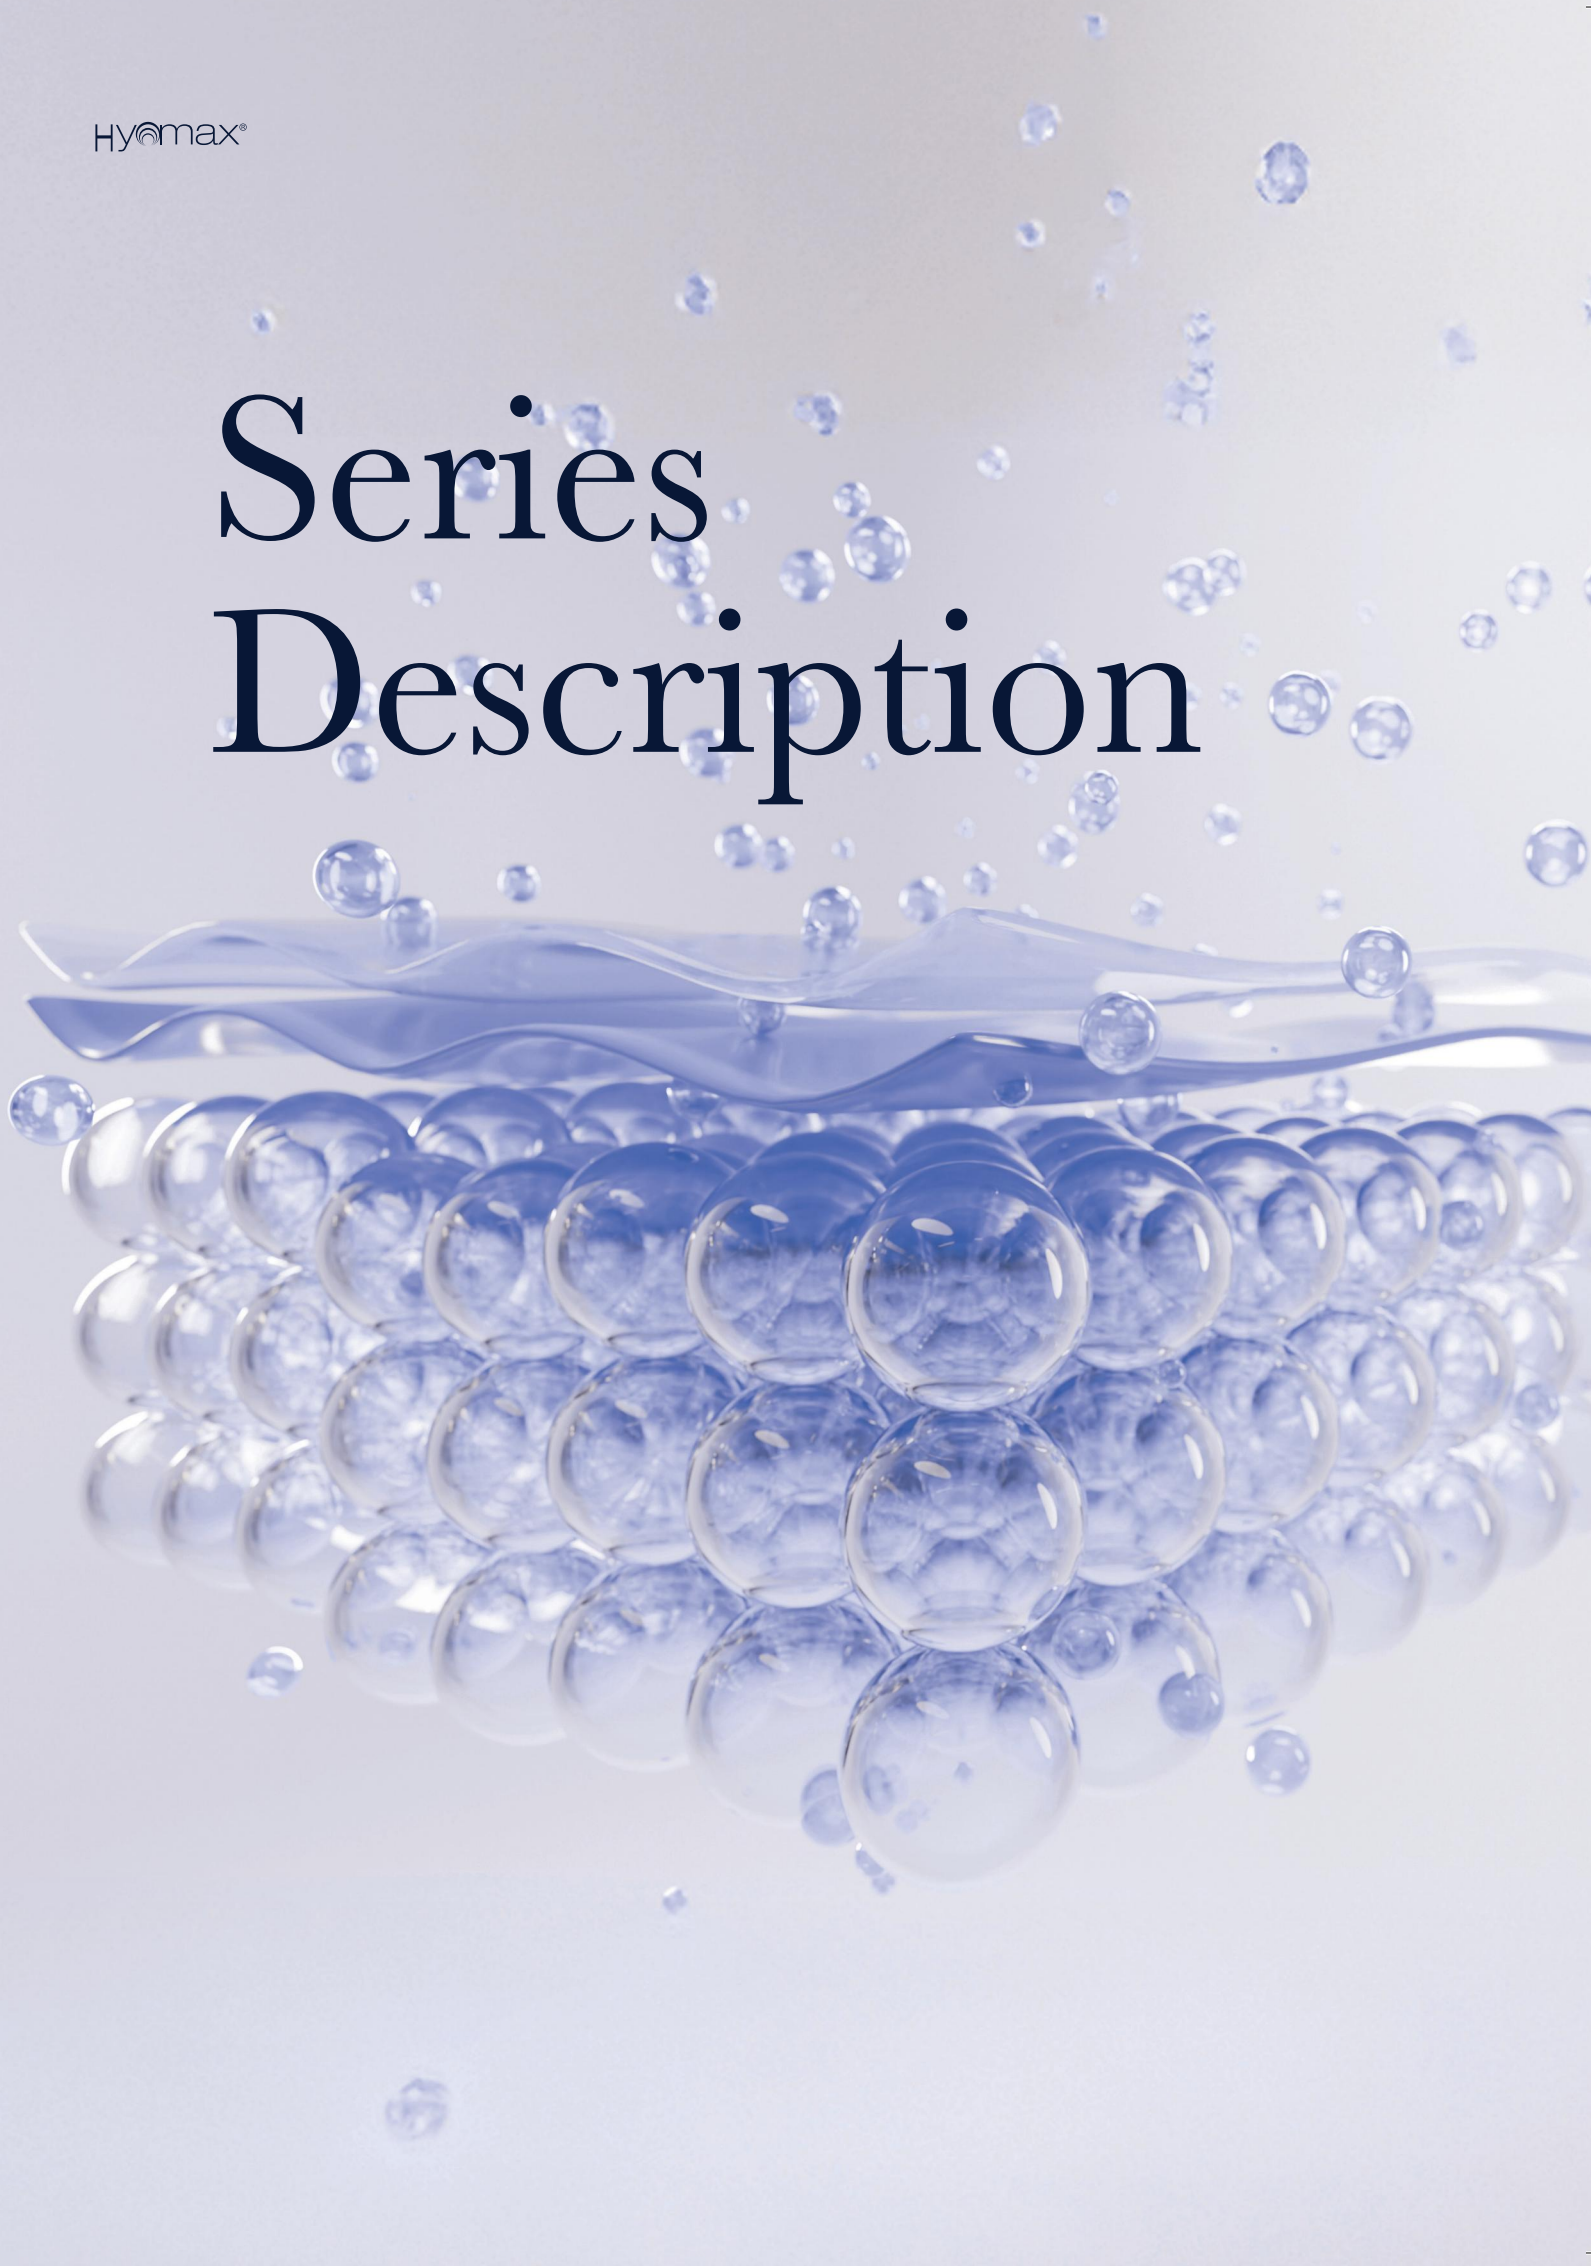

Balanced Aesthetic

Guided by the unique “Two ð One O” aesthetic design concept, the precise point layout is based on different facial zones, skillfully blending static beauty and dynamic softness to create a natural and clear side face.

- **BI-Π ZONE** mid-face dynamic expression zone;
- **LITE-π ZONE** perioral dynamic expression zone;
- **O ZONE** outer contour of the face (functional support area).

The treatment is targeted for different problems to achieve the effect of whole-layer anti-aging.

Series Description

HA+

HA+ series is smoother and presents a three-dimensional network structure. Excellent cohesion enables no tendency of the filler to disperse and flow in water and body fluids, achieving higher stability and the best supporting and contouring effect.

Biostimulator

Regenerative material is a material that promotes the regeneration of the body's own fibroblasts and collagen, with a natural filler effect and ultimately a facial rejuvenation effect

HL+

Through advanced physical technology and a combination of high and low molecules, it achieves a cross-linking effect and a safety breakthrough with no cross-linking agent residue. It not only delivers deep hydration and long-lasting lifting effects but also supports skin regeneration through nourishment, enhancing overall skin quality.

CE

With CE certified, lies in the unique formula and the patented crosslinking technology, which allows a highly viscous gel to be injected easily through a fine gauge needle without disrupting HA gel particle structure.

Our research and development team continuously pushes the boundaries of aesthetic injection technology. From molecular structure innovation to cross-linking process optimization, each hyaluronic acid product embodies the perfect balance of science and aesthetics. Swiss bioengineers, chemists, and pioneers in medical aesthetics collaborate to create high-purity, high-stability HA fillers, designed with precise rheological properties to seamlessly adapt to every detail of facial contouring.

Hyamax®

Volumizer

INDICATION

It's used for cheek augmentation to correct age-related volume deficit in the mid-face, and for augmentation of the chin region to improve the chin profile.

12 - 18 months

HA CONCENTRATION

20 mg/mL

NEEDLE SIZE

27G

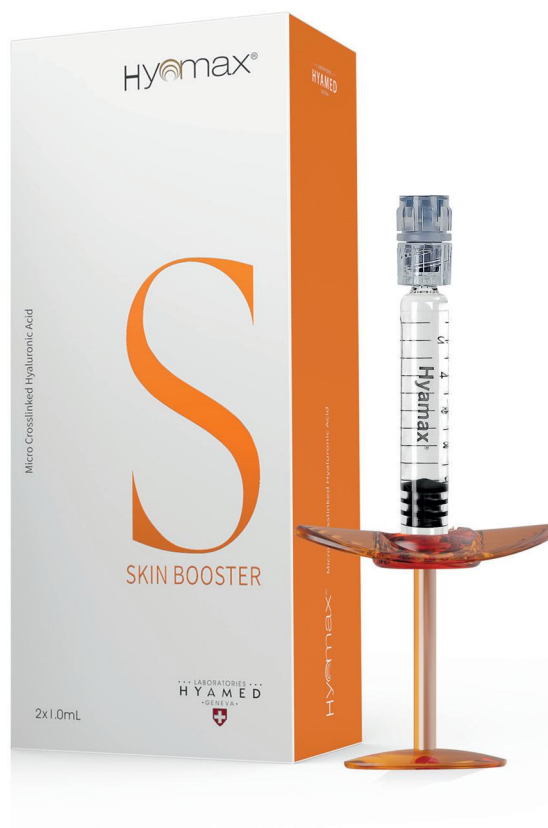

PACKAGE

2x1.0 mL/2x2.0 mL

Hyamax®

Skin Booster

INDICATION

It's indicated for reducing the lines and wrinkles, hydrating and improving the skin of the face.

6 - 9 months

HA CONCENTRATION

20 mg/mL

NEEDLE SIZE

27G

PACKAGE

2x1.0 mL

CaHA

INDICATION

As a deep dermal and subdermal soft tissue filler for facial contouring and restoration by correcting patients' facial soft tissue deficiency.

COMPOSITION

Calcium hydroxyapatite microspheres of 25-45 µm, Crosslinked sodium hyaluronate gel (20mg/mL), Phosphate buffer, Lidocaine hydrochloride (3mg/mL)

18 months to 3 years

NEEDLE SIZE

27G

PACKAGE

2x1.0 mL

PLLA

INDICATION

It is indicated for superficial and deep intradermal injections under the skin to boost natural collagen, correct fine lines and wrinkles in the cheek area, rebuild lost volume, improve skin texture, moisturize and brighten the skin.

COMPOSITION

150 mg of poly-L-lactic acid microspheres in bottle A;
5 ml of non-crosslinked hyaluronic acid with lidocaine in bottle B

24 months

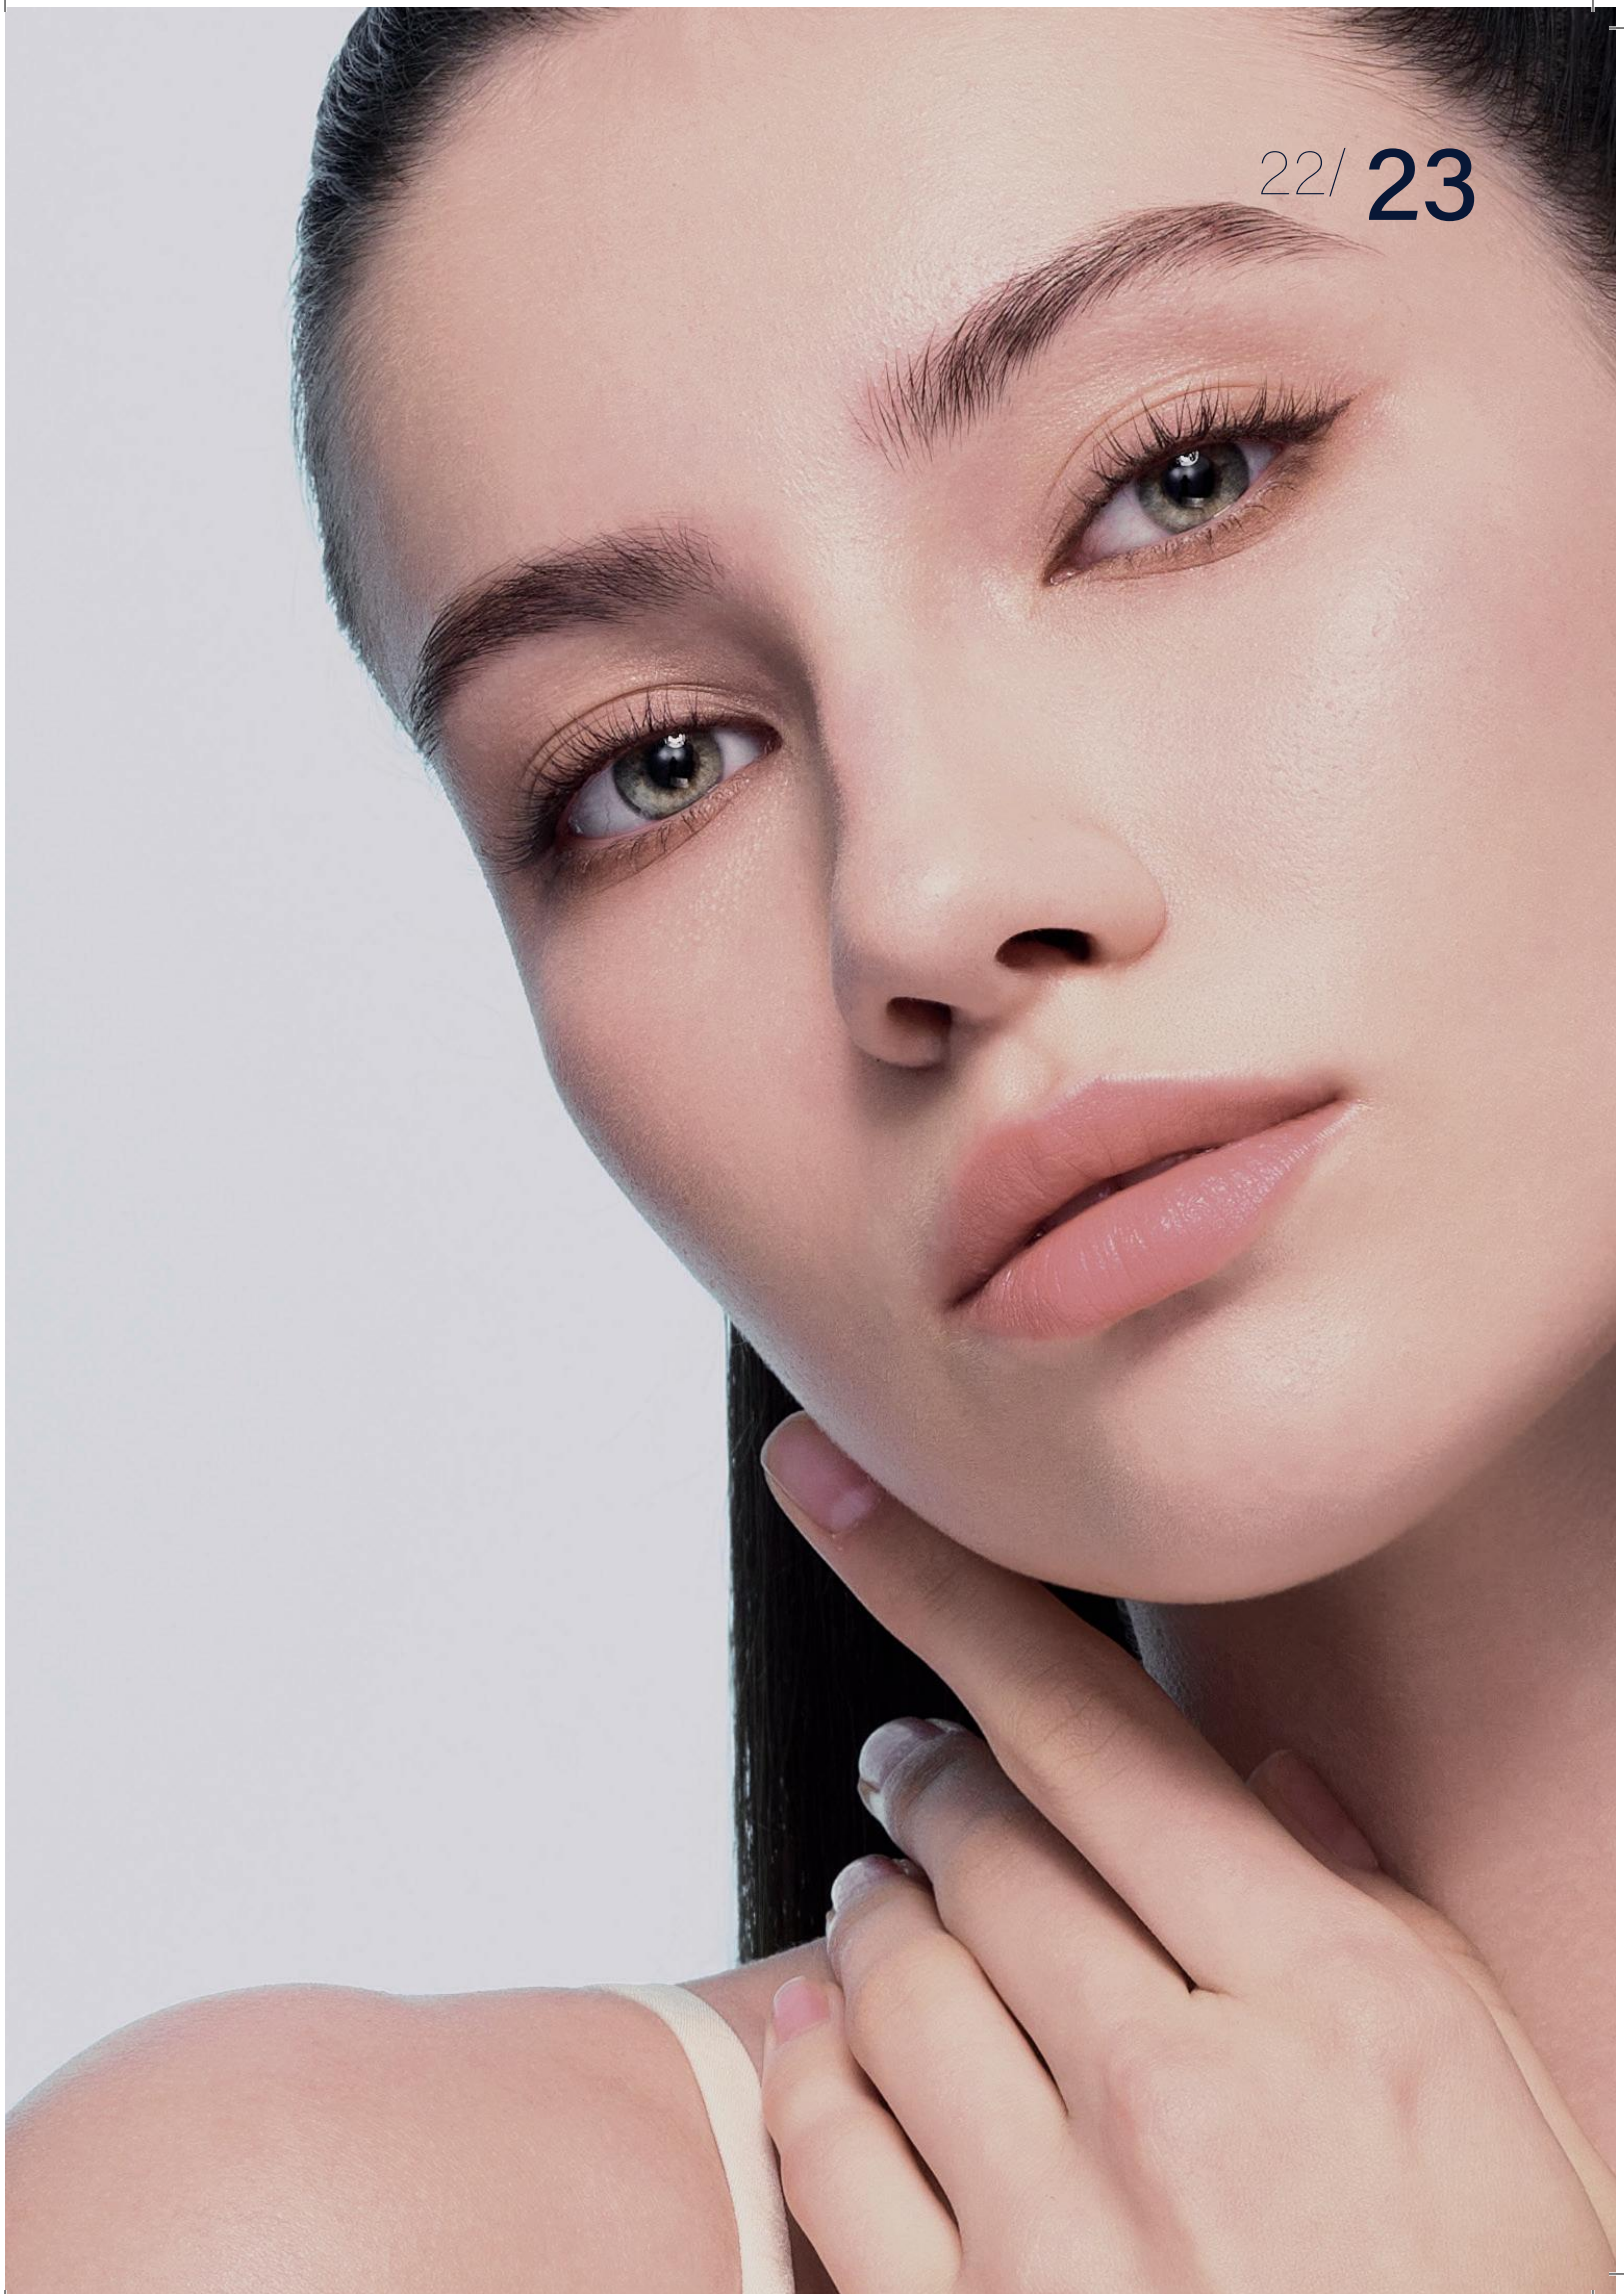

NEEDLE SIZE

27G

PACKAGE

2 Vials

Hyamax®

Hyavital

INDICATION

It's indicated for skin rejuvenation and tightening like the facial sagging, neck lines, skin aging.

TECHNOLOGY

H-HA and L-HA are crosslinked under the changes of low and high temperature without using BDDE.

6 months

HA CONCENTRATION

32 mg/mL

NEEDLE SIZE

30Gx1 & 27Gx1

PACKAGE

2x2.0 mL

Hyamax®

Super Booster

INDICATION

Anti-aging of face, enhancing skin hydration, elasticity and radiance, firming and lifting sagging skin.

COMPOSITION

3.5% HA (HMW&LMW) + 7 Amino Acids
+ 3 Peptides + PDRN

6 months

HA CONCENTRATION

35 mg/mL

NEEDLE SIZE

27G

PACKAGE

2x2.5 mL

Plus Fine

**INDICATION**

Repair of lines and superficial wrinkles.

6 - 9 months

HA CONCENTRATION
20 mg/mL

**AVERAGE PARTICLE SIZE***

100 - 300 μ m

**NEEDLE SIZE**

30G 1/2"

**PACKAGE**

2x1.0 mL

Plus Deep

**INDICATION**

Repair of lines and superficial wrinkles.

6 - 9 months

HA CONCENTRATION
20 mg/mL

**AVERAGE PARTICLE SIZE***

200 - 400 μ m

**NEEDLE SIZE**

27G 1/2"

**PACKAGE**

2x1.0 mL

* Each product in the Plus Series is crafted with advanced cross-linking technology to ensure optimal results, long-lasting effects, and a natural finish tailored to individual needs

Plus Extra Deep

**INDICATION**

Specialised for deep wrinkles, volume fillers.

6 - 12 months

HA CONCENTRATION

20 mg/mL

AVERAGE PARTICLE SIZE*

500 - 700 μ m

NEEDLE SIZE

27G 1/2"

PACKAGE

2x1.0 mL

Plus Lips

**INDICATION**

Lip volume filling and contouring.

6 - 12 months

HA CONCENTRATION

20 mg/mL

AVERAGE PARTICLE SIZE*

200 - 400 μ m

NEEDLE SIZE

27G 1/2"

PACKAGE

2x1.0 mL

* Each product in the Plus Series is crafted with advanced cross-linking technology to ensure optimal results, long-lasting effects, and a natural finish tailored to individual needs

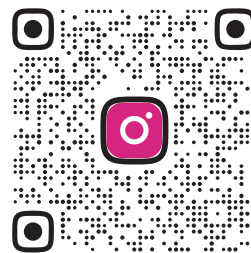

“We prioritize safety and aesthetics
to create long-lasting solutions for beauty.
The best ingredients in the market,
plus an eye for state-of-the-art technologies,
are our secret blend for success
and customer satisfaction.”
