

# The path: the way Hyamed works.

We take care of people with cutting-edge aesthetic medicine products, inspired by slow luxury, for safe, long-lasting and respectful beauty.

# The peak: who Hyamed wants to be.

At Hyamed we want to be a point of reference in the world of aesthetic medicine: an international company committed to the production of safe and high-performance non-surgical solutions, but also a scientific laboratory sensitive to changes in the times and attentive to the needs of the world, whose constant work bears the reassuring signature of "made in Switzerland".

The difference between Hyamax® and some other brands lies in the unique formula and the patented cross-linking technology, which allows a highly viscous gel to be injected easily through a fine gauge needle without disrupting HA gel particle structure.

The fluids can, under pressure (such as the force used when injecting), thus increase the rate of flow and then revert back to their original more highly viscous state once the pressure (i.e. the injection) has been stopped.

Injectable Filler  
Hyamax®

There are 5 dimensions of the face structure, which are Skin, Superficial fat, Facial muscles, Deep fat and Bone from the external to the internal. Aging is proven as a result of the interplay of alternations in the facial skeleton, ligaments, muscles, adipose tissues and skin.

During the treatment, Hyamax® fillers are injected by the practitioner into different layers of the skin like epidermis, dermis or hypodermis to add volume to the treatment area, depending on the candidates' aesthetic pursuits. The duration usually lasts 6-12 months and even up to 18 months.

## Plus Fine

### REPAIR OF LINES AND SUPERFICIAL WRINKLES

Perfect for treating delicate areas with fine lines, such as crow's feet and perioral wrinkles.

Provides a smooth, natural finish with precise correction.

⌚ 6 - 9 months

💉 **HA Concentration:** 20 mg/mL

📏 **Needle Size:** 30G 1/2"

💧 **Average particle size\*:** 100 - 300 µm

📦 **Package:** 2x1.0 mL

## Plus Deep

### FOR MODERATE TO SEVERE WRINKLES

Ideal for nasolabial folds, marionette lines, and other moderate-to-deep facial wrinkles.

Effectively restores volume and smoothens prominent folds for a rejuvenated appearance.

⌚ 6 -12 months

💉 **HA Concentration:** 20 mg/mL

📏 **Needle Size:** 27G 1/2"

💧 **Average particle size\*:** 200 - 400 µm

📦 **Package:** 2x1.0 mL

## Plus Extra Deep

### SPECIALISED FOR DEEP WRINKLES, VOLUME RESTORATION

Designed to address significant volume loss in areas like cheeks, temples, and jawline.

Enhances facial contours while reducing deep-set wrinkles for a youthful, sculpted look.

⌚ 6 -12 months

💉 **HA Concentration:** 20 mg/mL

📏 **Needle Size:** 27G 1/2"

💧 **Average particle size\*:** 500 - 700 µm

📦 **Package:** 2x1.0 mL

## Plus Lips

### LIP VOLUME FILLING AND CONTOURING

Adds volume and definition to lips, creating a fuller, more contoured appearance.

Perfect for reshaping lip lines and achieving a natural, plump effect.

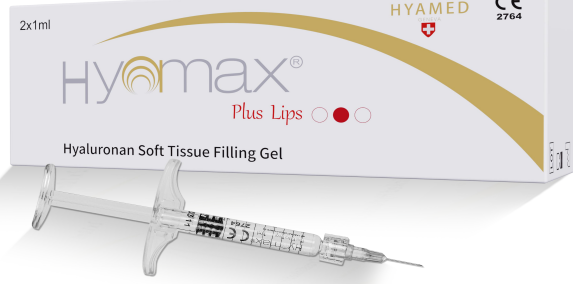

⌚ 6 -12 months

💉 **HA Concentration:** 20 mg/mL

📏 **Needle Size:** 27G 1/2"

💧 **Average particle size\*:** 200 - 400 µm

📦 **Package:** 2x1.0 mL

\* Each product in the Plus Series is crafted with advanced cross-linking technology to ensure optimal results, long-lasting effects, and a natural finish tailored to individual needs
