

Fine-designed structure

All for qualified products

RG-5X

Hydraulic pump

- High quality seal parts ensure long-term field usage without leaking
- Fine-machined cylinder with accurate sizes
- Proper-hardened piston rod of long-life
- Built-in groove depth adjusting rod

Casting part

- Reinforced cast iron housing for hydraulic pump, roller sets, pipe stabilizer
- Support color customization
- Balanced structure withstands tough jobs

Base and parts

- Pipe stabilizer ① to prevent pipe slipping
- Steel tube bracket ② for handy grip
- Complete steel base plate ③ High-strength, solid and deformation-resistant.
- Tool box ④ for easy stock of roll sets, tools and parts

Roll sets

- Available in sizes:
1"-1 1/2", 2"-3", 3 1/2"-6", 8"-12"
- For steel pipe 1"-8" Sch10 & Sch 40
10"-12" Sch10
- High strength steel, hardened to withstand long-time usage

Pipe stand

- Quick size adjustable rods, fine-machined slots with latch
- Steel ball heads, for smooth rotation, and forward-backward moving of pipe
- Adjustable height to suit different size pipes: 2"-12"

Foot switch

- Removable foot switch with cable and plug
- Safety operation choice
- Light-weight and reliable
