Dedicated to pipe tools

Company Introduction

Since 2005, Hangzhou Weiping Machinery Equipment Co., Ltd. has been focusing on the development, manufacturing and sales of pipe tool equipment. Our goal is to combine industrial-level design, performance and quality to create a machine that will become your first choice.

Our products can be used in municipal drainage, natural gas, sewage, chemical, agricultural irrigation and so on. Our products sell well at home and abroad by virtue of high quality and competitive price. They are mainly distributed in India, South Africa, Sri Lanka, Russia, Germany and so on.

To suit different pipe applications and market requirements, we are offering different level tools represented by brand WELPING, YOVIDA, Doweld and Volkir. Brand WELPING enjoys a high reputation in the market of China and Russia, benefiting from the steady quality and performance. Thanks to our experienced engineers, WELPING can help you to quickly decide OEM and ODM requirements. At the same time, we are improving and updating products line to better suit field requirements.

WELPING takes the advantages of our full line production capacity, from laser cutting, die casting, metal fabrication and machining, powder coating and assembly. We can always provide competitive pricing and optimal production time. Standard items and light-OEM items, WELPING can finish within 10 days.

As the leading integrated supplier of pipe tool solutions, WELPING has been expanding from manufacturing butt welding equipment, pipe bender, drain cleaning and other hydraulic tools apply to any kind of pipes. We intend to bring industrial level design, performance and quality together, to help you build reputation in the field of pipe jointing.
