

Product Specification

Item	Spec
Product Model:	MR688B-SV
Product Size:	91.5*42.5*127.5mm
Camera Type:	CMOS
Camera Lens Focal Length	8mm
Operating Voltage:	DC12/24V
Minimum Operating Voltage:	9V
Maximum Operating Voltage:	32V
Working Current:	12V power, about 380mA 24V power, about 180mA
Working Temperature:	-10℃~+50℃
Storage Temperature:	-45℃~+85℃
Detection Distance:	600-100cm
Driver Drowsiness Recognition (sec):	Min.1s It can be adjusted by setting sensitivity
Driver Distraction Recognition (sec):	Min.2s It can be adjusted by setting sensitivity
Volume:	Adjustable
