COMPANY PROFILE

Sanhe is a company that aspired to be the most eco-friendly sink manufacturer in China. Upgrade the family kitchen with quality and technology, and strive for a happy life For all mankind. Founded in 1995, Sanha has been focusing on R&D, manufacturing and marketing of stainless steel household products, commercial sinks, kitchen and bathroom products for 28 years, providing trustworthy and high-quality products to over 1000 customers from all over the world. Sanhe has two production bases: Foshan Sanhe is located in Shishan Town, Nanhai District, Foshan City, Guangdong Province, covering an area of more than 20,000 square meters, with 5 advanced modern production lines and a monthly output of more than 80,000 pieces; Kman(a wholly owned branch factory of Sanhe) is located in Bangkok, North Range Province, covering an area of 10,000 square meters, with two modern production lines and a monthly output of more than 20,000 pieces.

For 28 years, we have been adhering to the professional, pragmatic, altruistic, and mutually beneficial business philosophy. Our products are only made of T304 stainless steel material while the thickness marked without false. Customer service is also upgraded and extended. It is fully supported from the new product development design, process formulation to picture album making and video demonstration.

The 1000 clients served are from North America, South America, Australia, the Middle East, Africa, and Southeast Asia; They are cabinet vendor, cabinet trader, stone vendor, hardware trader, full house builder, chain building material super marker, e-commerce company and so on . The relationship between some of them has lasted over 20 years as good partners and family members.

Foshan Sanhe and Thailand Kman have North America cUPC, NSF certificate and ISO9001 certificate. The product quality is guaranteed, Goods exported from Thailand with low tariffs and no anti-dumping risk.
